The members of the Boards of Directors, Supervisory and Management of the Company during the year and to the date of this report are as follows:

Independent member

### **Board of Directors**

Mr. Nguyen Van Thanh	Chairman
Mr. Rodrigo Emmanuel Franco	Vice Chairman
Mr. Le Quoc Binh	Member
Mr. Nguyen Van Chinh	Member
Mr. Christopher Daniel C. Lizo	Member
Mr. Francis Gerard Elizaga Aberilla	Independent member

### **Board of Supervisory**

Mr. Le Van Nam

Ms. Nguyen Thi Hong Hanh	Head of the Supervisory Board
Ms. Duong Thi Long Nghi	Member
Ms. Luong Kim Dien An	Member

### **Board of Management**

Mr. Nguyen Van Chinh	General Director
Mr. Francis Gerard Elizaga Aberilla	Deputy General Director
Mr. Nguyen Duy Minh	Deputy General Director (appointed on 17 February 2025)
Mr. Le Trung Hieu	Chief Financial Officer

### Legal Representative

The legal representative of the Company during the year and to the date of this report is Mr. Nguyen Van Chinh - the Company's General Director.

### **AUDITORS**

The consolidated financial statements of the Company for the year ended 31 December 2024 have been audited by International Auditing Company Limited - An independent member firm of AGN International.

### STATEMENT OF THE BOARD OF MANAGEMENT (continued)

### **BOARD OF MANAGEMENT'S STATEMENT OF RESPONSIBILITY**

The Board of Management of the Company is responsible for preparing the consolidated financial statements, which give a true and fair view of the consolidated financial position of the Company as at 31 December 2024, its consolidated financial performance, and its consolidated cash flows for the year then ended in accordance with Vietnamese accounting standards, accounting regime for enterprises and legal regulations relating to consolidated financial reporting. In preparing these consolidated financial statements, the Board of Management is required to:

- Select suitable accounting policies and then apply them consistently;
- Make judgments and estimates that are reasonable and prudent;
- State whether applicable accounting principles have been followed, subject to any material departures disclosed and explained in the consolidated financial statements;
- Prepare the consolidated financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business; and
- Design and implement an effective internal control system to properly prepare and present the consolidated financial statements to minimize errors and frauds.

The Board of Management is responsible for ensuring that proper accounting records are kept, which disclose, with reasonable accuracy at any time, the consolidated financial position of the Company and that the consolidated financial statements comply with Vietnamese accounting standards, accounting regime for enterprises, and legal regulations relating to consolidated financial reporting. The Board of Management is also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of frauds and other irregularities.

The Board of Management confirms that the Company has complied with the above requirements in preparing these consolidated financial statements.

For and on behalf of the Board of Management,

GO CONTROL

### INDEPENDENT AUDITORS' REPORT

To:

**Shareholders** 

**Boards of Directors and Management** 

CII Bridges and Roads Investment Joint Stock Company

We have audited the accompanying consolidated financial statements of CII Bridges and Roads Investment Joint Stock Company (hereinafter referred to as "the Company"), prepared on 06 March 2025 as set out from page 4 to page 61, which comprise the consolidated balance sheet as at 31 December 2024, the consolidated statement of income and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements.

### **Board of Management's Responsibility**

The Board of Management is responsible for the preparation and presentation of these consolidated financial statements in accordance with Vietnamese accounting standards, accounting regime for enterprise and prevailing relevant regulations in the consolidated financial statement preparation and disclosure and for such internal control as the Board or Management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

### Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Vietnamese standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Company's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Opinion

In our opinion, the consolidated financial statements give a true and fair view of, in all material respects, the consolidated financial position of the Company as at 31 December 2024, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Vietnamese accounting standards, accounting regime for enterprises and legal regulations relating to consolidated financial reporting.

For the year ended 31 December 2024

### I. GENERAL INFORMATION (continued)

### The Company's structure (continued)

(i) According to the agreement between the Company, CII, and relevant shareholders signed on 8 December 2015, CII will be responsible for all obligations and also enjoy all rights and benefits arising from the equity investment in Trung Luong - My Thuan BOT Joint Stock Company.

### Characteristics of the business activities in the fiscal year which have impact on the consolidated financial statements

On 25 October 2024, the Board of Directors of Ho Chi Minh City Infrastructure Investment Joint Stock Company ("CII Company") issued a Resolution on restructuring the investment portfolio between CII Company and its subsidiaries. This restructuring of the investment portfolio has led to several changes for the Company during the year, as follows:

- CII Company has transferred part of its investment in the Company to CII Trading and Investment Co., Ltd. ("CII Invest"), a company 100% owned by CII. As a result, CII Company now directly owns 51.83% and indirectly owns 3.01% of voting rights in the Company through CII Invest.
- On 18 December 2024, CII transferred the cooperation of 40% equity investment in Trung Luong My Thuan BOT Joint Stock Company as per the agreement between the Company and CII to CII Invest.
- On 27 December 2024, CII Company transferred the ownership of bond BNTCH2433001 of BOT Ninh Thuan Province Co., Ltd. and bond HNHCH2433001 of Hanoi Highway Construction and Investment JSC. to CII Invest. From this time onwards, CII Invest will assume all rights and obligations related to the above bonds.

### Disclosure of information comparability in the consolidated financial statements

The Company's Board of Management ensures to comply with the requirements of Vietnamese accounting standards, the accounting regime for enterprises promulgated under Circular No. 200/2014/TT-BTC dated 22 December 2014 by the Ministry of Finance guiding the accounting regime for enterprises and Circular No. 53/2016/TT-BTC dated 21 March 2016 by the Ministry of Finance amending and supplementing some articles of Circular No. 200/2014/TT-BTC, and circulars guiding the implementation of accounting standards of the Ministry of Finance in preparing and presenting consolidated financial statements. Therefore, the information and accounting data presented on the consolidated financial statements are comparable.

### II. ACCOUNTING CONVENTION AND FINANCIAL YEAR

### Accounting convention

The accompanying consolidated financial statements, expressed in Vietnamese Dong (VND), are prepared under the historical cost convention and in accordance with Vietnamese accounting standards, accounting regimes for enterprises, and legal regulations relating to consolidated financial reporting.

The accompanying consolidated financial statements are not intended to present the financial position, results of consolidated operations, and consolidated cash flows in accordance with accounting principles and practices generally accepted in countries and jurisdictions other than Vietnam.

### Financial year

The Company's financial year begins on 01 January and ends on 31 December.

### III. APPLIED ACCOUNTING STANDARDS AND ACCOUNTING REGIME

The Company's Board of Management ensures to comply with the requirements of Vietnamese accounting standards, the accounting regime for enterprises promulgated under Circular No. 200/2014/TT-BTC dated 22 December 2014 by the Ministry of Finance guiding the accounting regime for enterprises and Circular No. 53/2016/TT-BTC dated 21 March 2016 by the Ministry of Finance amending and supplementing some articles of Circular No. 200/2014/TT-BTC, and circulars guiding the implementation of accounting standards of the Ministry of Finance in preparing and presenting consolidated financial statements.

### IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies, which have been adopted by the Company in the preparation of these consolidated financial statements, are as follows:

### **Estimates**

The preparation of consolidated financial statements in conformity with Vietnamese accounting standards, accounting regime for enterprises, and legal regulations relating to consolidated financial reporting requires the Board of Management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the period. Although these accounting estimates are based on the Board of Management's best knowledge, actual results may differ from those estimates.

### Basis of consolidation

The consolidated financial statements incorporated the separate financial statements of the Company and enterprises controlled by the Company (its subsidiaries) which were prepared for the year ended 31 December 2024. Control is achieved where the Company has the power to govern the financial and operating policies of an investee enterprise so as to obtain benefits from its activities.

The results of operations of subsidiaries acquired or disposed of during the period are included in the consolidated income statement from the effective date of acquisition or up to the effective date of disposal, as appropriate.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring the accounting policies used in line with those used by the Company.

Intra-group transactions and balances are eliminated in full-on consolidation financial statements.

Non-controlling interests in the net assets of consolidated subsidiaries are presented separately from the equity of the owners of the parent in the consolidated balance sheet. Non-controlling interests consist of those at the date of an initial business combination and the portion of non-controlling interests in changes of total equity since the date of the business combination. Losses incurred in a subsidiary must be allocated to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

### **Business combinations**

On acquisition, the assets and liabilities and contingent liabilities of a subsidiary are measured at their fair values at the date of acquisition. Any excess of the cost of acquisition over the fair values of the identifiable net assets acquired is recognized as goodwill. Any deficiency of the cost of acquisition below the fair values of the identifiable net assets acquired is credited to profit and loss in the accounting period of acquisition.

For the year ended 31 December 2024

### IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### Business combinations (continued)

In case prior to the date that control is obtained, the Company does not have a significant influence on the subsidiary and the investment is presented at cost, when preparing the consolidated financial statements the Company will remeasure its investment in the acquiree at its acquisition-date fair value. The difference between the revalued amount and the cost of investment is recognised in the consolidated income statement.

In case prior to the date that control is obtained, the investment is an investment in an associate or joint venture of the Company and is presented under the equity method, when preparing the consolidated financial statements the Company will remeasure its previously held equity interest in the acquiree at its acquisition-date fair value. The difference between the revalued amount and the value of investment under the equity method is recognised in the consolidated income statement.

The non-controlling interests are initially measured at the non-controlling shareholders' proportion of the net fair value of the assets, liabilities, and contingent liabilities recognized.

The effect of transactions resulting in changes in the Company's ownership interest in the subsidiaries without loss of control is recorded directly in the retained earnings in the consolidated balance sheet.

### Goodwill

Goodwill represents the excess of the cost of acquisition over the Company's interest in the net fair value of the identifiable assets, liabilities, and contingent liabilities of a subsidiary, associate, or jointly controlled entity at the date of acquisition.

Goodwill arising on the acquisition of a subsidiary is recognized as an asset, is presented separately as an intangible asset in the consolidated balance sheet, and is amortized on a straight-line basis over its estimated period of benefit of 10 years. The Company conducts the periodical review for impairment of goodwill of investments in subsidiaries. If there are indicators that the impairment loss incurred is higher than the yearly allocated amount of goodwill on a straight-line basis, the higher amount will be recognized in the consolidated income statement.

Goodwill arising on the acquisition of associates and jointly controlled entities is included in the carrying amount of the associates and jointly controlled entities. The Company does not amortize this goodwill.

On disposal of a subsidiary, associate, or jointly controlled entity, the attributable amount of unamortized goodwill is included in the determination of the profit or loss on disposal.

### Bargain purchase gain

Bargain purchase gain represents the excess of the Company's interest in the net fair value of the identifiable assets, liabilities, and contingent liabilities of a subsidiary, associate, or jointly controlled entity at the date of acquisition over the cost of acquisition. Bargain purchase gain is immediately recognised in the consolidated income statement at the acquisition date.

### Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits and short-term bank deposits, highly liquid investments, which are matured within three months commencing on the transaction date, readily convertible to known amounts of cash, and which are subject to an insignificant risk of changes in value.

For the year ended 31 December 2024

### IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### Held-to-maturity investments

Held-to-maturity investments comprise investments that the Company has the positive intent or ability to hold to maturity, including term deposits of more than three months (commercial bills), bonds, and preference shares which the issuer shall redeem at a certain date in the future, and other held-to-maturity investments.

Held-to-maturity investments are recognized on a trade date basis and are initially measured at acquisition price plus directly attributable transaction costs. Post-acquisition interest income from held-to-maturity investments is recognized in the consolidated statement of income on an accrual basis Pre-acquisition interest and other economic benefits are deducted from the cost of such investments at the acquisition date.

When there is specific evidence that a part or all of the investment may not be recoverable and the amount of loss can be measured reliably, the loss is recognized in financial expenses during the period and directly reduced to the investment value.

Held-to-maturity investments are measured at cost less provision for doubtful debts.

Provision for doubtful debts relating to held-to-maturity investments is made in accordance with prevailing accounting regulations.

### Trade receivables

Receivables represent the amounts recoverable from customers or other debtors and are stated at book value less provision for doubtful debts.

Provision for doubtful debts is made for overdue receivables stated in economic contracts, loan agreements, contractual commitments or debt commitments, and outstanding receivables that are doubtful of being recovered. Provision for overdue receivables is made based on overdue days in payment of principals following the initial economic contract, exclusive of the rescheduling of debts between contracting parties, provision for outstanding receivables is made when the debtor is in bankruptcy or is doing procedures to dissolve, missing, escaped.

An increase or decrease in provision for doubtful debts at the closing date is recognized in general and administration expenses in the year.

### Loan receivables

Loan receivables present the loans under agreements that are not traded on the market as securities.

Loan receivables are measured at cost less provision for doubtful debts. Provision for doubtful debts relating to loan receivables is made based on expected losses that may arise.

### Inventories

Inventories are stated at the lower of cost and net realizable value. Cost comprises direct materials and, where applicable, direct labor costs and those overheads that have been incurred in bringing the inventories to their present location and condition. Cost is calculated using the weighted average method. The net realizable value represents the estimated selling price less all estimated costs to completion and expenses incurred in marketing, selling, and distribution.

For the year ended 31 December 2024

### IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### Inventories (continued)

Provision for devaluation of inventories is made in accordance with prevailing accounting regulations, which allow provision to be made for obsolete, damaged, or sub-standard inventories and for those that have costs higher than net realizable values as of the reporting date. The provision for devaluation of obsolete, damaged, or sub-standard inventories is not included in deductible expenses for the calculation of corporate income tax until such inventories are disposed.

An increase or decrease in the provision for devaluation of inventories at the closing date is recognized in the cost of sales in the year.

### **Prepayments**

Prepayments include actual costs that have arisen but are related to the results of the operation of various accounting periods. Prepayments primarily comprise the borrowing cost of B.O.T projects, repair costs, road and bridge maintenance, and other types of prepayments.

Borrowing costs of B.O.T projects are recorded as prepaid expenses, including borrowing costs of loans directly invested in projects but not capitalized into the cost of the toll collection rights according to the decision of the competent State agency and interest expenses arising during the exploitation phase to recover investment capital. These costs are allocated to the consolidated income statement according to the rate of toll revenue when the projects are put into concession periods on the principle of preserving the equity's rate of return under B.O.T contracts.

Expenses for maintenance of bridges and roads under contractual obligations of B.O.T contracts shall be allocated within periodic maintenance work of each project.

Costs of loan procedures directly related to the Company's loans are allocated using the straight-line method within duration of the loans.

Other prepayments comprise consulting costs, quality inspection of works, and costs of small tools, issued for consumption which are expected to provide future economic benefits to the Company. These expenditures have been capitalized as prepayments and are allocated to the statement of income using the straight-line method in accordance with the prevailing accounting regulation.

### Tangible fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation.

The costs of purchased tangible fixed assets comprise their purchase prices and any directly attributable costs of bringing the assets to their working condition and location for their intended use.

The costs of self-constructed or manufactured assets are the actual construction or manufacturing costs plus installation and test running costs.

Tangible fixed assets are depreciated using the straight-line method over their estimated useful lives, as follows:

	<u>years</u>
Buildings and structures	10 - 50
Machinery and equipment	5 - 20
Motor vehicles, transmissions	5 - 10
Office equipment	3 - 8

Loss or gain resulting from sales and disposals of tangible fixed assets is the difference between profit from sales or disposals of assets and their residual values and is recognized in the consolidated statement of income.

### IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### Intangible fixed assets

Intangible assets are stated in the consolidated balance sheet at cost less accumulated amortization.

The Company's intangible fixed assets comprise toll collection rights, land use rights, and computer software.

Toll collection rights are obtained from the B.O.T contracts signed between the Company and authorized agencies of the State. Its cost is determined by the final settlement value based on directly attributable costs of the project and approved by the State agencies. Toll collection rights are amortized using the method of proportion to revenue in accordance with the duration of exploitation and toll collection. The Company will adjust the amortization rate when the project's financial plan changes due to updating the cash flow from tolls according to the actual traffic volume on the principle of preserving the equity's rate of return under B.O.T contracts.

Toll collection rights obtained in an acquisition of a subsidiary are also capitalized and recognized as intangible fixed assets. The fair value of the assets acquired in a business combination is based on discounted estimated future cash flows from toll revenue. Its fair value is assessed after deducting fair returns on all other assets that contribute to generating the cash flows. The excess of the fair value of the toll right over its carrying amount is amortized using the straight-line method over the remaining period of toll concession.

Land use rights with definite useful terms are amortized over granted using lives. Land use rights with the indefinite term are not amortized as prevailing regulation.

Computer software is amortized using the straight-line method within 3 to 8 years.

Loss or gain resulting from sales and disposals of intangible fixed assets is the difference between profit from sales or disposals of assets and their residual values and is recognized in the consolidated statement of income.

### Construction in progress

Properties in the course of construction for production, rental, or administrative purposes, or the purposes not yet determined, are carried at cost. Cost includes professional fees and for qualifying assets, borrowing costs dealt with under the Company's accounting policy. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

### **Payables**

Accounts payable are monitored in detail by payable terms, payable parties, original currency, and other factors depending on the Company's managerial requirements. Accounts payable to suppliers include trade payables arising from buying-selling transactions and payables for import through trustees (in import entrustment transactions). Other payables include non-trade payables not related to buying-selling transactions. Accounts payable are classified as short-term and long-term in the consolidated balance sheet based on the remaining period of these payables at the reporting date.

### Accrued expenses

Accrued expenses are recognized for amounts to be paid in the future for goods and services received, whether or not billed to the Company or lack of accounting document, which are recorded to operating expenses of the reporting period.

### IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### Borrowings and finance lease liabilities

Borrowings and finance lease liabilities including loans, finance lease debts, excluding loans in the form of bonds or preferred shares with provisions that oblige the issuer to repurchase at a certain time in the future. The Company records borrowings in detail by debtors and classifies them into short-term and long-term borrowings based on their remaining period from the balance sheet date to the maturity date.

Costs directly attributable to borrowings are recognized as financial expenses, except for costs incurred on a particular loan for investment, construction, or production of an asset in progress, which are capitalized under the accounting standard "Borrowing costs".

### Straight bond issued

Bonds are issued as long-term borrowings.

Carrying value of straight bonds is recorded on net basis, equal to bonds' nominal amount less (-) Bond discount plus (+) Bond premium.

The Company accounts for the issued bonds' discount and premium individually and recognises their amortisation for the purpose of determining borrowing costs which are recorded as expenses or capitalised during each period, as follows:

- Bond discount is amortised gradually during bonds' life, accounted for as borrowing costs;
- Bond premium is amortised gradually during bonds' life, reducing borrowing costs;

Straight-line method: the amount of discount or premium for each period is equally amortised during bonds' life

Costs directly attributable to the issuance of straight bond are initially recorded as a deduction from the principal of the straight bond. Periodically, such costs are allocated under the straight-line method over the term of the bond by increasing the principal and corresponding borrowing cost.

### Owners' equity recognition

Owners' equity is recognized by actual capital contributions from shareholders.

Share premium is recognized at the greater or smaller difference between issuing price and par value of shares upon the initial public offering, additional issue, or re-issue of treasury shares. Costs directly attributable to the issuance of new shares and the re-issuance of treasury shares are deducted share premium.

Retained earnings are recognized by operating results less (-) current corporate income tax expense and adjustments due to the retrospective application of changes in accounting policies and the retrospective adjustments for material misstatements of prior periods.

Dividends are announced and paid in the following year based on approval in the Annual General Meeting of the Company. Dividends shall be recognized in the consolidated balance sheet when the declaration is officially sent to shareholders of the Company.

Appropriation of reserves and funds from profit after tax is based on the Company's ordinance and approval in the Annual General Meeting.

For the year ended 31 December 2024

### IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### Revenue recognition

Revenue from sales of goods

Revenue from the sales of goods is recognized when all five (5) following conditions are satisfied:

- (a) The Company has transferred to the buyer the significant risks and rewards of ownership of the goods;
- (b) The Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- (c) The amount of revenue can be measured reliably. Where the sale contract stipulates that the buyer is entitled to return the purchased products or goods under specific conditions, revenue is recognized only when those specific conditions no longer exist, and the buyer is not entitled to return products and goods (except for cases where customers have the right to return goods in the form of exchange for other goods or services);
- (d) The Company has received or will probably receive economic benefits associated with the transaction; and
- (e) The costs incurred or to be incurred in respect of the transaction can be measured reliably.

### Revenue from services rendered

Revenue from rendering services of a transaction involving the rendering of services is recognized when the outcome of such transactions can be measured reliably. Where a transaction involving the rendering of services is attributable to several periods, revenue is recognized in each period by reference to the percentage of completion of the transaction at the balance sheet date of that period. The outcome of a transaction can be measured reliably when all four (4) following conditions are satisfied:

- (a) The amount of revenue can be measured reliably. Where the contract stipulates that the buyer is entitled to return the purchased service under specific conditions, revenue is recognized only when those specific conditions no longer exist and the buyer is not entitled to return the service rendered provided;
- (b) It is probable that the economic benefits associated with the transaction will flow to the Company;
- (c) The percentage of completion of the transaction at the balance sheet date can be measured reliably; and
- (d) The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

### Tolling revenue

Tolling revenue is recognized based on the sales of tickets at the rates stipulated by the State on each specific route that the Company is allowed to toll to recover its investment in B.O.T projects.

Income of capital preservation from B.O.T projects

Income of capital preservation from B.O.T projects is recognized on an accrual basis, determined by the outstanding balance of the owners' capital paid in the projects and the rate of return specified in each B.O.T contract. This profit will be gradually deducted from the annual traffic fee revenue of the project. The Company applies the guidance of the Ministry of Finance No.6070/BTC-CST 15 May 2013 in recognition of this equity preservation interest.

### Financial income

Interest income is accrued on a time basis by reference to the principal outstanding and at the applicable interest rate unless the recovery of interest is uncertain.

Dividends and profits from investments are recognized when the Company's right to receive payment has been established. When the investors receive stock dividends, they only record the number of additional shares, not the income from stock dividends.

### IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### Revenue recognition (continued)

Construction contract

Revenue and expenses of construction contracts are recognized as follows:

When the outcome of a construction contract can be estimated reliably:

- For construction contracts stipulating that the contractors are permitted to make payments
  under schedule, contract revenue and contract costs associated with the construction
  contract shall be recognized as revenue and expenses, respectively, by reference to the
  completion stage of the contract activity at the end of the reporting period.
- For construction regulating that the contractors are permitted to make payments equivalently
  to the percentage of work certified by customers, contract revenue and contract costs
  associated with the construction contract shall be recognized as revenue and expenses,
  respectively, by reference to the completed work confirmed by the customers and reflected
  on the invoice.

Revenue from alternations in the original contract work, compensation, claims, and incentive payments are recognized only when agreed with the customers.

When the outcome of a construction contract cannot be reliably estimated:

- Contract revenue should be recognized only to the extent that contract costs are expected to be recoverable.
- Contract costs should be expensed as incurred.

The difference between accumulated contract revenue and the accumulated amount recorded in the payment invoice according to the billing progress of the contract is recognized as a contract asset or contract liability.

### Cost of sales recognition

Cost of goods sold and services rendered are recorded at the actual incurred amount and aggregated by the value and quantity of finished goods, merchandise, and materials sold and services rendered to customers, conforming to the matching principle and the precautionary principle. The costs exceeded normal levels of inventory, and services were recognized immediately in operating results in the year.

### **Borrowing costs**

Borrowing costs are recognized in the consolidated statement of income in the period when incurred unless they are capitalized under the Vietnamese accounting standard "Borrowing costs". Accordingly, borrowing costs directly attributable to the acquisition, construction, or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets until the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the cost of those assets.

Borrowing costs, which incur during the toll collection period of B.O.T projects, are allocated by the proportion of tolling revenue if the Company is the initial investor of the project or recognized at the actual cost incurred if the Company acquires the projects.

For specific borrowings for construction of fixed assets and investment properties, borrowing costs are capitalized even when the construction period is less than 12 months.

11

### IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### **Business cooperation agreement**

Business cooperation agreements are agreements between the Company and its partners by contract to jointly carry out business activities but do not establish independent legal entities and are controlled by one of the parties. Profit sharing for partners is recorded in the consolidated statement of income.

### **Taxation**

The income tax expense represents the sum of tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the period. Taxable profit differs from net profit as reported in the consolidated statement of income because it excludes items of income or expense that are taxable or deductible in other periods (including loss carried forward, if any), and it further excludes items that are never taxable or deductible.

Deferred tax is recognized on significant differences between carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognized for all temporary differences, and deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which temporary deductible differences can be utilized.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realized. Deferred tax is charged or credited to profit or loss, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

Other taxes are paid in accordance with the prevailing tax laws in Vietnam.

The determination of the tax currently payable is based on the current interpretation of tax regulations. However, these regulations are subject to periodic variation, and their ultimate determination depends on the results of the tax authorities' examinations.

### Related parties

The enterprises, associates, and individuals are considered to be related to the Company if one party has the ability, directly or indirectly through one or more intermediaries, to control over the other party or is under the control of the Company or joint control with the Company; the associates and individuals directly or indirectly holding the voting power over the Company that exercises significant influence over the Company. Related parties may be the key management personnel, the General Director, and officers of the Company. Close family members of any individuals or associates herein or associates of these individuals are also considered related parties.

In considering the relationship of each related party, the substance of the relationship is noted over the legal form.

### Earnings per share

Basic earnings per share are calculated by dividing post-tax profits or losses attributable to ordinary shareholders (after adjusting for an appropriation for bonus and welfare funds) by the weighted average number of ordinary shares in circulation during the period.

Н

### IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### Segment report

A segment is a distinguishable part of the Company involved in the provision of related products or services (by business segment) or in the provision of products or services within a particular economic environment (geographical area), which is subject to risks and returns that are different from those of other segments. The Board of Executive Officers believes that the Company operates in its business segments of investment under B.O.T contracts, traffic tolling, installation of construction work, and other activities and operating in many geographical areas, including the following provinces and cities: Ho Chi Minh City, Tien Giang Province, Ninh Thuan Province, Ben Tre Province, Tra Vinh Province, and Binh Duong Province. The segment report is prepared based on the type of business and geographical areas.

### V. INFORMATION SUPPLEMENTING THE ITEMS IN THE CONSOLIDATED BALANCE SHEET

### 1, Cash and cash equivalents

·	31/12/2024 	01/01/2024 VND
Cash on hand	1,171,322,028	1,560,067,782

The ending balance reflects receivables from Ho Chi Minh City Infrastructure Investment Joint Stock Company (CII), which includes:

- The short-term financial support to supplement working capital was under the contract signed in 2015 and appendices. The financial support limit is VND 500 billion, the applicable interest rate for the period was 11% per annum, and the maturity date according to the contract is 02 August 2026 or when both parties have requirements of paying. The balance as of 31 December 2024 is VND 497,150,167,627.
- The short-term financial support with a limit under the contract signed on 26 September 2023 and appendices, amounts to VND 25 billion, a term of 12 months and be matured on 26 September 2025 with an interest rate ranging from 6.0% to 8.5% per annum, and no collateral. The principal and accrued interest will be payable at maturity. The purpose of the financial support is to supplement working capital. The balance as of 31 December 2024 is VND 18,681,410,958.
- The investment cooperation under the contract and appendix, with a limit of VND 100 billion, maturing on 06 June 2026, aims to execute and develop business activities. The Company is entitled to a profit margin of 8.5% per annum on the transferred collaboration funds. The balance as of 31 December 2024 is VND 45 billion.

The financial support for Tuan Loc Construction Investment Corporation following a three-year term contract from 08 April 2024 was for paying the value of purchased shares of BOT Trung Luong My Thuan JSC. The applicable interest rate for the period was 8.5% per annum. This financial support is guaranteed by the number of purchased shares and accompanying benefits of Tuan Loc in BOT Trung Luong My Thuan JSC.

- (i) The profits were paid in advance of BOT Rach Mieu Bridge Co., Ltd. to investors. They will be debited to retained earnings of the subsidiary when official decisions on the distribution of profits are approved.
- (ii) The balance represents the advance payment for the comprehensive consulting contract for the Trung Luong My Thuan Expressway project signed with A2Z Construction Consulting JSC. The parties are no longer proceeding with this contract and are currently conducting the necessary procedures for termination.
- (iii) The ending balance represents the advanced amount to Tuan Loc Construction Investment Corporation under the purchase and sale agreement signed on 25 October 2023. Accordingly, Tuan Loc promises to sell, and the Company commits to buy the number of shares of BOT Trung Luong My Thuan JSC. that Tuan Loc owns within three years from the date of signing the agreement.

Province (***)	57,565,194,220	
	1,549,303,012,809	1,293,711,517,636
Less: Amount deducted from toll revenue in		
next 12 months	(102,449,115,744)	(102,449,115,744)
Deducted from toll revenue after 12 months	1,446,853,897,065	1,191,262,401,892

- (\*) The equity preservation interest during the toll collection period of Project Ha Noi Highway expansion with an equity interest rate according to the B.O.T contract of 14% per annum.
- (\*\*) During the year, the Company made changes in accounting estimates related to the recognition of rights and financial benefits from the Project of expansion of 1A National Highway, section through Ninh Thuan Province ("the Project"): According to the B.O.T contract, the Company is entitled to an equity preservation interest during the toll collection period at a rate of 12% per annum for equity portion. For the loan-financed portion of the Project, the interest rate used to calculate the capital recovery period is determined based on the average medium-term lending rate of the three largest banks in Ninh Thuan Province. as stipulated in the B.O.T contract. These rights and benefits are gradually recovered through toll collection activities. Thus, to fully reflect the economic benefits that the Company may derive from the investment in the Project, in the year, the Company adjusted the carrying value of receivables related equity interest and the difference between the fixed loan interest rate per the BOT contract and the actual loan interest rate incurred. The change in accounting estimates from the fiscal year 2024 financial year is based on updated information and a review of new events. Specifically, before 2024, revenue arising from toll collection for the section 1A National Highway, Km1584+100 (Ca Na toll station) was allocated between two projects, this Project and the project of 1A National Road bypass expansion, section through Phan Rang - Thap Cham ("Project NT1") (see further at Note V.11). When Project NT1 was suspended toll collection for finalization, all revenue generated at this toll station is used to recover the investment for the Project.
- (\*\*\*) Similar to the Ninh Thuan project as mentioned above, this year, the Company made adjustment for the receivables related to the equity preservation interest during the operational phase of the B.O.T Project of DT 741 Road expansion, Binh Duong Province. This receivable will be recovered through toll collection activities. Equity preservation interest represents the income determined on the unrecovered equity multiplied by the equity preservation interest rate of 8.4% per annum as stipulated in the B.O.T contract (see Note VI.3 for further details).

The change in accounting estimates for the B.O.T Projects of 1A National Highway and DT 741 Road has increased the Company's receivables and financial income for the year by VND 359,042,773,308 (as presented in Note VI.3). The Company's Boad of Management assessed that the recognition of these financial benefits to be appropriate given the Company's actual circumstances and reasonably reflective of the asset value associated with its project investments. The value of these receivables may change depending on the final settlement of the total project investment, fluctuations in actual borrowing interest rates, or adjustments to the financial plan of the projects based on updated toll revenue figures.

### Information about tolling B.O.T projects to recover investment is as follows:

### a. Project of Trung Luong - My Thuan Expressway phase 1

The right to collect tolls to claim for investment in the project Trung Luong - My Thuan Expressway phase 1 under the B.O.T contract with cost temporarily determined as of 31 December 2024 is VND 9,472,955,542,307. The amount is determined based on the costs spent to implement the project under the B.O.T contract No. 14/HĐ.BOT-GTVT signed on 18 November 2016 with the People's Committee of Tien Giang Province and the contract appendix. The project was officially put into toll collection at 0:00 am on 9 August 2022. According to the financial plan in the 2019 B.O.T contract appendix, the Company is entitled to collect tolls for about 14 years and 8 months. This concession period will be officially settled with the competent State agency based on ensuring the equity interest rate for investors is 11.5%/year.

The Company amortizes this right in proportion to revenue in the period at the rate of 30.18%.

On the acquisition date of BOT Trung Luong - My Thuan Joint Stock Company ("project company"), the Company measured the fair value of net assets of this subsidiary. Accordingly, this revaluation resulted in an increase in the fair value of toll collection right by VND 691,728,230,913. This was the excess of the revaluated amount using discounted future cash inflows from tolling over the carrying amount of the subsidiary's net assets at the acquisition date. The fair value had been only recognized in the consolidated financial statements without any adjustments to the carrying amount of the asset in the subsidiary's financial statements. The added value due to revaluation is amortized on a straight-line method within 13 years and 6 months, corresponding to the remaining time of toll collection since the acquisition date of the subsidiary.

For the year ended 31 December 2024

### V. INFORMATION SUPPLEMENTING THE ITEMS IN THE CONSOLIDATED BALANCE SHEET (continued)

### 11. Intangible fixed assets (continued)

### b. Project of Hanoi highway expansion

The right to collect tolls to claim for investment in the project of expansion Hanoi Highway and 1 National Road, the section from the old Station 2 junction to the Tan Van intersection under B.O.T contract with cost temporarily determined as of 31 December 2024 is VND 3,578,148,197,470. The amount is determined based on the costs spent to implement the project under the B.O.T contract signed on 25 November 2009 with the Department of Transport of Ho Chi Minh City and the contract appendix B.O.T signed with the People's Committee of Ho Chi Minh City dated 9 July 2018. The project was officially put into toll collection at 0:00 am on 1 April 2021. According to the B.O.T contract and its appendix, the Company is entitled to collect tolls for about 17 years and 9 months. This concession period will be officially settled with the competent State agency based on ensuring the equity interest rate for investors is 14% per annum, including construction investment phase.

The Company amortizes this right in proportion to revenue in the period at the rate of 15.35% (the previous period's amortization rate is 13.426%).

### c. Project of 60 National Road expansion connecting Ben Tre Province and Tra Vinh Province

The Company is allowed to collect tolls for Rach Mieu bridge to recover its investment in the project of 60 National Road expansion connecting Ben Tre province and Tra Vinh province. The cost of this toll collection right is temporarily recognized as of 31 December 2024 as VND 1,120,436,031,106. This cost shall be adjusted after the Company performs the final settlement with the State agency. The estimated toll collection period is about 14 years and 8 months, starting from 0:00 am on 5 July 2021. This concession period will be officially settled with the competent State agency based on ensuring the equity interest rate for investors is 11.5%/year. Currently, the Company is conducting procedures of investment value settlement with the competent State agency.

The toll collection right is currently amortized in proportion to revenue at 33% (the proportion of previous year was 35%).

### d. Project of 1A National Road extension, section through Ninh Thuan Province

The cost of toll collection right to reclaim capital invested in the B.O.T project of 1A National Road extension, section through Ninh Thuan Province, with historical cost temporarily determined as of 31 December 2024 is VND 1,488,834,908,800. This cost comprises all directly attributable expenditures paid to the project under the B.O.T contract signed with the Ministry of Transport dated 8 December 2014. Ca Na station has officially put into the tolling period since 0:00 am on 1 April 2017 to reclaim capital for this project in parallel with the project of 1A National Road extension, section through Phan Rang - Thap Cham city (noted below) under the direction of the Ministry of Transport and the Ministry of Finance. According to the B.O.T contract and its appendix, the estimated toll collection period is about 19 years and 7 months, this concession period will be officially settled with the competent State agency based on ensuring the equity interest rate for investors is 12%/year.

The toll collection right is currently amortized in proportion to revenue at the proportion of 12.28%.

### 11. Intangible fixed assets (continued)

### e. Project of DT 741 road upgrade and expansion

The toll collection right has been granted to the Company to reimburse its investment in the construction of DT 741 Road expansion - Binh Duong Province, the section from Km 0 + 000 to Km 49 + 670.4 with the cost of VND 698,254,877,278. This cost comprises all directly attributable expenditures paid to the project under the B.O.T contract signed with the People's Committee of Binh Duong Province on 9 September 2009. Road toll station DT741 was officially put into toll collection for the return of investment in the Km 21 + 000 to Km 49 + 670.4 section from 01 August 2006. The Km 0 + 000 to Km 21 + 000 section was built in 2009 and officially put into operation on 01 September 2011. According to the B.O.T contract and its appendix, it is expected that the Company has the right to toll in about 30.81 years. This concession period will be officially settled with the competent State agency based on ensuring the equity interest rate for investors temporarily calculated at the time of contract signing is 8.4%/year.

The toll right is amortized in proportion to revenue at the current amortization rate of 10.47% (the previous period's amortization rate is 7.77%).

On the acquisition date of VRG Infrastructure Investment Co., Ltd., the Company measured the fair value of the net assets of this subsidiary. This revaluation resulted in an increase in the fair value of toll collection right by VND 276,430,752,980. This was the excess of the revaluated amount using discounted future cash inflows from tolling over the carrying amount of the subsidiary's net assets at the effective date. The fair value had been only recognized in the consolidated financial statements without any adjustments to the carrying amount of the asset in the subsidiary's financial statements. The added value due to revaluation is amortized on a straight-line method within 20 years and 3 months, corresponding to the remaining time of toll collection since the acquisition date of the subsidiary.

### f. Project of Co Chien Bridge

The toll collection right was obtained from the acquisition of Co Chien Investment Company Limited. The Company is granted to collect toll to recover its investment in the construction of Co Chien Bridge on 60 National Road, connecting Ben Tre and Tra Vinh provinces. The cost of this right as of 31 December 2024 is VND 752,313,769,586, which was determined by all directly attributable expenditures paid to the project according to the B.O.T contract signed with the Ministry of Transport. The project has been put into tolling since 1 September 2016. The Company is entitled to a toll collection period of about 11 years and 4 months. This toll collection period will be officially settled with the competent State agency to ensure that the equity interest rate for investors is 11.5%/per annum under the B.O.T contract.

The toll collection right is amortized in proportion to revenue at the current amortization rate of 23%.

The amortisation rates of B.O.T projects can be adjusted when the investment value in the projects is finalized by the competent State authorities or when the projects' financial plan changes due to the update of actual annual toll revenue.

The Company commits to use proceeds and other economic benefits derived from toll collection rights to secure its bank loans (see Note V.20).

### 11. Intangible fixed assets (continued)

### Toll collection rights awaiting liquidation

Project of 1A National Road bypass expansion, section through Phan Rang - Thap Cham

The toll collection right to recover investment in the construction of 1A National Road bypass expansion, section through Phan Rang - Thap Cham City following the B.O.T contract signed between the Directorate for Roads of Vietnam and the Joint Venture of the Company and 577 Investment Corporation on 8 December 2008. The Company finished toll collection from 0:00 01 October 2023. As of the closing date, the Company has fully amortized the cost of this toll collection right and is currently carrying out procedures to settle the project's return toll collection value with the competent State agency. The cost of the awaiting liquidation asset is VND 575,246,181,077.

### Project of Rach Mieu bridge

The Company is granted toll collection right to recover its investment in Rach Mieu bridge construction project. This project was performed under B.O.T with support from the State budget and was approved by the Minister of the Ministry of Transport. The Company finished toll collection on 5 July 2021 and is conducting project settlement procedures with the State agency. The cost of the awaiting liquidation asset is VND 495,607,637,262.

The cost of the Company's tangible fixed assets, which have been fully amortised but are still in use as of 31 December 2024 and as of 01 January 2024 is VND 955,068,500 and VND 715,000,000, respectively.

The tax rate used to calculate deferred tax is the projected tax rate for the future periods when the property is collected, or the liability is settled.

三〇一 むらし じま

V. INFORMATION SUPPLEMENTING THE ITEMS IN THE CONSOLIDATED BALANCE SHEET (continued)

### 13. Deferred tax (continued)

- (i) Under the B.O.T contract for the Hanoi Highway Expansion Project, the Company is entitled to an equity preservation interest rate of 14% per annum during construction phase. According to the guidance of the Ministry of Finance, the equity preservation interest accrued during this period is recognized as financial income and then shall be gradually deducted from toll revenue when the project is put into operation. The Company had declared and paid corporate income tax at a rate of 20% on the recognized equity interest and had also recorded a deferred tax asset at the same tax rate to reflect the tax that will be deductible in the future as toll revenue is incurred. As of 31 December 2024, the remaining deductible equity preservation interest for this project is VND 1,108,652,654,215 (as presented in Note V.6), corresponding to a deferred tax asset of VND 221,730,530,834.
- (ii) Deferred tax assets arising from equity preservation interest and financial benefits from other B.O.T projects include:
  - The Project of 1A National Road expansion, section through Ninh Thuan Province: the Company recorded deferred tax assets for equity preservation interest and loan interest difference of the project of VND 299,669,584,999 with a tax rate of 5%, equivalent to VND 14,983,479,250. The tax rate used to recognize deferred tax is the preferential tax rate of the Project because the Company expects to fully recover these benefits during the project's tax incentive period;
  - The Project of DT 741 Road expansion: As of 31 December 2024, the equity preservation interest balance is VND 57,565,194,220, with a corresponding deferred tax asset of VND 8,191,527,137. The tax rate applied for this deferred tax asset is 14.23%, calculated based on the average tax rate for the projected recovery periods.
- (iii) The ending balance represents deferred tax liabilities on business combination transactions as follows:
  - Deferred tax liabilities from the revaluation of the fair value of the net assets of BOT Trung Luong My Thuan Joint Stock Company as of the acquisition date. As of 31 December 2024, the net book value of the additional cost is VND 627,679,320,643, equivalent to a deferred tax payable of VND 125,535,864,129.
  - Deferred tax liabilities from the revaluation of the fair value of the net assets of VRG Infrastructure Investment Co., Ltd. as of the acquisition date. This deferred tax is deducted directly from the gain on bargain purchase. As of 31 December 2024, the net book value of the additional cost is VND 143,334,464,525, equivalent to a deferred tax payable of VND 28,666,892,904.

Deferred tax liabilities will be gradually reversed according to the amortized value of the Company's increased toll collection right due to revaluation.

- (i) The ending balance represents amounts received from investment cooperation contracts and accrued interest, including:
  - The amount received from Dien Bien Phu Building Investment Company Limited (OBI) following the investment cooperation contract in the project of 1A National Road extension, section through Ninh Thuan Province. The contract term is 8 years from the date that OBI fully pays the cooperative capital. According to the contract, OBI will receive profit distributions from the project or a value that is agreed between two parties at each time of payment. The outstanding payment balance as of 31 December 2024 is VND 965,000,000,000.
  - The amount received from CII Engineering and Construction JSC. (CII E&C) under the investment cooperation contract in the project of Trung Luong My Thuan Expressway phase 1. The contract term is from 01 July 2023 to 31 December 2031. As agreed, CII E&C will receive profit distributions from the project, or a value agreed upon between two parties at each time of payment. The outstanding payment balance as of 31 December 2024 is VND 902,980,382,919.
  - The amount received from Khu Bac Thu Thiem Co., Ltd. (KBTT) under the investment cooperation contract in the Ha Noi Highway project. The contract term is ten years from the day KBTT fully paid the cooperative capital. According to the contract, KBTT will receive profit distributions from the project, or a value agreed upon between two parties at each time of payment. The outstanding payment balance as of 31 December 2024 is VND 878,652,639,319.
  - The cooperation capital received for investment in Trung Luong My Thuan BOT Joint Stock Company, corresponding to a 40% interest, with CII Trading and Investment Co., Ltd. (previously cooperation with CII Company), is valued at VND 790,616,490,377 as of 31 December 2024.

For the year ended 31 December 2024

### VI. INFORMATION SUPPLEMENTING THE ITEMS IN THE CONSOLIDATED STATEMENT OF INCOME (continued)

### 8. Current corporate income tax expense (continued)

(i) The investments in infrastructure projects under B.O.T and B.T contracts are entitled to such tax incentives under the current corporate income tax law. Specifically, income derived from these investment projects is entitled to a preferential tax rate of 10% within 15 years, tax exemption for four years, and a reduction of 50% of tax payable for the following nine years.

### 9. Basic earnings per share

	2024 VND	2023 VND
Profit after tax of Parent company	531,809,949,326	691,595,269,613
Appropriation of bonus and welfare funds	(7,630,242,879)	(6,977,232,619)
Net profit attributable to ordinary		
shareholders of the parent Weighted average number of ordinary shares	524,179,706,447	684,618,036,994
in circulation during the period	192,854,765	192,854,765
Basic earnings per share	2,718	3,550

The profit used to calculate basic earnings per share for the comparative period has been adjusted from the figures presented in the consolidated financial statements for the prior year to reflect the impact of offical decision of profit distribution for 2023 approved by 2024 Annual General Meeting of Shareholders on 23 April 2024.

The appropriation of bonus and welfare funds was deducted from the profit attributable to the calculation of basic earnings per share and was estimated at the ratio of 2.5% on the profit after tax presented in the separate financial statements following the profit distribution plan for 2024 approved by the General Meeting of Shareholders.

### 2. Operating lease commitments - the Company is the lessee

As of the balance sheet date, the Company has an irrevocable office lease under which the minimum future lease payments for operating leases are as follows:

	31/12/2024 VND	01/01/2024 VND
Within one year In the second to fifth year inclusive	3,115,886,801 2,904,029,091	4,030,021,971 7,855,179,237
Total	6,019,915,892	11,885,201,208

### 3. Segment report

For management purposes, the Company is organized into different business units. Accordingly, the primary segment report is based on the Company's products and services.

Segment results include items directly allocated to one segment and more than one segment on a reasonable basis. Items are not included in the segment report, such as assets, liabilities, financial income, financial expenses, selling expenses, general and administrative expenses, other profit, losses, and corporate income tax.

The Company is organized into three business divisions: maintenance and installation of construction works; services rendered; and toll collection. The principal activities of each segment are as follows:

- Maintenance, installation, and construction: installing lighting construction works, providing the maintenance service of public construction works;
- Services render: leasing office building; providing consultancy on management and toll collection to recoup investments in infrastructure projects under B.O.T contracts;
- Toll collection: the Company has been granted toll collection rights on such routes to reclaim
  its investments in infrastructure projects under B.O.T contracts.

The Company has prepared this report in three business segments. Segment information about the Company's operations is presented below:
