CII Bridges and Roads Investment Joint Stock Company (CII B&R) hereby explains the differences in business results in the Interim Consolidated Financial Statements for the First Six Months ended June 30, 2025, compared to the same period last year as follows:

The profit after corporate income tax (CIT) for the first six months of 2025 in the consolidated financial statements decreased by 17% compared to the same period of the previous year.

The primary reasons are attributed to:

- Increasing loan costs
- Corporate income tax expenses increased at certain BOT projects due to the expiration of tax incentives as prescribed by the Law on Corporate Income Tax for investment projects.

We confirm that the above explanation accurately reflects the Company's actual business operations. Respectfully submitted to the competent authorities and our valued shareholders for your information.

Sincere!
