VISION & MISSION

VISION

To become the leading company in sustainable transportation infrastructure development in Vietnam, making a positive contribution to the overall development of society

CORE VALUES

Participating in the socialization process of investment in transportation infrastructure development.
Develop new capital mobilization channels from financial institutions, the public, and other economic sectors for infrastructure development

MISSION

Develop modern transportation infrastructure to enhance connectivity and promote socioeconomic growth. Focus on strategic, large-scale projects that lay a sustainable foundation for long-term development and improve quality of life.
Build sincere and responsible partnerships to achieve reasonable profits and ensure shareholder benefits.
Empower employees to maximize their talents and continuously enhance their well-being

DEVELOPMENT ORIENTATION

With the mission of delivering high-quality transportation infrastructure solutions, CII B&R not only focuses on acquiring and operating existing projects but also actively collaborates with strategic partners to develop new projects

BUSINESS AREAS

The company's main business operations are concentrated in the Southern region, Southeast region, and Ho Chi Minh City

BUSINESS LINES

Investment, development, and operation of transportation infrastructure systems under the public-private partnership (PPP) model.

KEY RISKS AFFECTING THE COMPANY'S BUSINESS OPERATIONS

Economic risk:

Changes in policies or economic factors (inflation, interest rates, exchange rates, etc.) can pose risks to the Company's business operations. Fluctuations in interest rates may increase borrowing costs, leading to higher operating expenses, which could adversely affect the Company's business performance.

Transportation infrastructure sector risks:

The Company's primary business activity of investing in bridge and road transportation projects under the public-private partnership (PPP) model often requires large-scale capital investments. In the context of a challenging financial market, the Company may also face certain impacts when utilizing financial instruments.

Environmental risks:

Due to the nature of the construction and infrastructure investment sector, which primarily involves outdoor production and long project execution times, factors such as weather, climate, geological structure, and terrain conditions significantly impact the project's duration, quality, and cost.

Legal Risks:

CII Bridges & Roads Investment JSC (CII B&R) is officially listed on the Ho Chi Minh City Stock Exchange, so all of the company's activities are subject to legal regulations, including the Law on Enterprises, the Law on Commerce, the Law on Securities, tax laws, and other guiding documents issued by the Government, the Ministry of Finance, the State Securities Commission, the Ho Chi Minh City Stock Exchange, and relevant authorities. This may pose legal risks to the company since the current legal system in Vietnam is not entirely consistent, and guiding documents remain incomplete and are still being refined, which may result in amendments and supplements.

Additionally, the company's business activities are exposed to policy risks, as toll tariff and the tariff increase roadmap are not controlled by the company but are determined by state policies. However, this risk is mitigated by the provisions of the BOT contract, which allow for adjustments to the toll collection period to ensure capital recovery if annual revenue affects the project's investment recovery capacity.

Other Risks:

In addition to the above risks, the operations of CII Bridges & Roads Investment JSC may be exposed to other risks such as earthquakes, natural disasters, epidemics, strikes, and wars. These are force majeure risks that rarely occur in practice, but if they do, they may cause significant damage to both property and human resources, as well as adversely affect the Company's overall operations.

ESTABLISHMENT & DEVELOPMENT

2014 – JOURNEY OF INNOVATION AND DEVELOPMENT

1978

The predecessor was Lu Gia Mechanical Company, a state-owned enterprise established in 1978.

1999

Following equitization, the company became Lu Gia Mechanical - Electrical JSC.

2006

Officially listed 1,000,000 shares on HOSE (Stock code: LGC).

2013

Ho Chi Minh City Infrastructure Investment JSC became the parent company of Lu Gia Mechanical - Electrical JSC.

2014

Renamed to CII Bridges and Roads Investment JSC (CII B&R).

2016

Metro Pacific Tollways Corp. (MPTC) becomes a major shareholder of CII B&R.

2025

CII B&R owns a portfolio of 06 BOT projects with total assets of VND 23,490 billion

Since August 2014, Lugiaco Mechanical and Electrical Joint Stock Company (LUGIACO) has been renamed CII Bridges & Roads Investment JSC (CII B&R). From this point onward, the company officially shifted its primary business focus to investing in bridge and road infrastructure projects through public-private partnership (PPP) models. This transition was made by acquiring infrastructure investment projects from its parent company - Ho Chi Minh City Infrastructure Investment JSC (CII), including projects such as Saigon 2 Bridge, Hanoi Highway, Ninh Thuan Bypass, National Route 1 Expansion through Ninh Thuan Province, Rach Mieu Bridge, National Route 60 Expansion connecting Rach Mieu Bridge to Co Chien Bridge, DT 741 Project (Binh Duong Province), Co Chien Bridge, and Trung Luong - My Thuan Expressway.

Photo: Ha Noi Highway Project

With this strong transformation, the company's shares have attracted significant interest from foreign investors, including Metro Pacific Tollways Corporation (MPTC) — a major transportation infrastructure investor from the Philippines. This laid the foundation for MPTC to officially become a major shareholder of CII B&R from 2016 to the present.

PROJECT DEVELOPMENT OVER THE YEARS

2015

BOT DT 741 Project

Officially commenced operation and toll collection in August 2006. CII B&R invested in the project in February 2015.

2016

BOT Rach Mieu Bridge, National Highway 60 Project

Officially commenced operation and toll collection in April 2009. CII B&R invested in the project in July 2016.

2017

BOT Ninh Thuan Project

Officially launched and began toll collection in April 2017.

2018

BOT Co Chien Bridge Project

Officially commenced operation and toll collection in September 2016. CII B&R invested in the project in April 2018.

2021

BOT Hanoi Highway Project

Officially commenced operation and toll collection in August 2021.

2022

BOT Trung Luong - My Thuan Project

Officially commenced operation and toll collection in August 2022. Completed ownership increase to 89% in the BOT Trung Luong - My Thuan project.

719 Billion VND

1. INVESTMENT SITUATION AND PROJECT IMPLEMENTATION

BOT project portfolio	Location	Description	Progress	Toll revenue 2025
Expansion Investment of National Route 1 (BOT Ninh Thuan 2)	Ninh Thuan province (now Khanh Hoa Province)	As a project to upgrade and expand the deteriorated section of National Route 1 passing through Ninh Thuan, the project serves as a key driver for economic, social, and political development in the central provinces. It helps reduce traffic accidents in Ninh Thuan province while enabling synchronized and efficient exploitation along the entire National Route 1 from Thanh Hoa to Can Tho.	The project is currently in the concession period.	177 billion VND
The project for investment and construction to expand Ha Noi Highway and National Route 1	The section from the old Tram 2 intersection to Tan Van (Ho Chi Minh City)	Hanoi Highway plays a crucial role as the main gateway of the Eastern area. It is also a key arterial road in the Southern transportation network, effectively promoting regional economic connectivity. The convenient connection between the High-Tech Park, industrial zones, and freight port clusters helps reduce travel time and lower costs for businesses.	The project has been basically completed. Some remaining items are currently under construction. The project has been in the concession period since April 1, 2021.	776 billion VND
DT741 BOT Project	Binh Duong province (now Ho Chi Minh City)	This project involves upgrading and expanding DT 741, stretching from So Sao Intersection to the border of Binh Phuoc Province, meeting transportation needs and contributing to the socio-economic development of Binh Duong Province.	The project is currently in the concession period.	150 billion VND

BOT project portfolio	Location	Description	Progress	Toll revenue 2025
Rach Mieu Bridge Project	A cable-stayed bridge connecting Tien Giang and Ben Tre provinces (now: Dong Thap Province and Vinh Long Province)	It is an important bridge located on the arterial route connecting the Mekong Delta provinces to Ho Chi Minh City.	The project is currently in the concession period.	211 billion VND
The Co Chien Bridge project	It is the bridge spanning the buffer zone between Ben Tre and Tra Vinh. (now Vinh Long province)	The Co Chien Bridge, spanning the buffer zone between Ben Tre and Tra Vinh, has been completed, connecting the entire National Route 60 from Tien Giang to Tra Vinh and shortening the distance from Ho Chi Minh City to Tra Vinh by approximately 70 km. This is a key project in the country's industrialization and modernization efforts, aligned with the strategy of developing the coastal corridor. It creates favorable conditions to attract investors, supports socio-economic development in the Mekong Delta region, and enhances national defense and security in the area.	The project is currently in the concession period.	156 billion VND
The Trung Luong – My Thuan Expressway BOT project	Tien Giang province (now Dong Thap province)	The Trung Luong – My Thuan Expressway project is a vital arterial transportation project connecting the Southwest region with Ho Chi Minh City and the Southern Key Economic Zone. It serves as a crucial gateway for the Mekong Delta's economy and helps reduce traffic congestion on National Route 1.	The project is currently in the concession period.	1.343 billion VND

1. Consolidated business results of CII B&R in 2025

(Unit: million VND)

No.	Items	2024	2025	% change
1	Total revenue	3.060.831	3.141.387	102.6%
2	Total costs	2.236.102	2.371.878	106.1%
3	Profit before tax	824.729	769.510	93.3%
4	Profit after tax	791.644	718.845	90.8%
4.1	Profit after tax attributable to parent company shareholders	531.810	510.380	96%
4.2	Profit after tax attributable to non-controlling interests	259.834	208.465	80%

Note: Profit after tax in 2025 decreased by **9.2%** compared to 2024. The reasons are:

- ❖ Decrease in financial income.
- ❖ Increase in financial expenses and corporate income tax expenses.

2. Key financial ratio

b) Liability situation

(Unit: Million VND)

No.	Items	01/01/2025	31/12/2025
A.	LIABILITIES	17.778.676	17.319.465
1.	Short-term liabilities	1.761.657	2.180.738
2.	Long-term liabilities	16.017.019	15.138.727

Operational and Human Resources Situation

As of 31/12/2025, the number of officers and employees at the Company is 26, structured by qualification as follows:

Working Regime:

The Company implements an 8-hour workday, 40-hour workweek from Monday to Friday.

Salary Policy:

Based on business performance and the employees' job performance, the Company distributes salaries appropriate to job titles and job characteristics in accordance with labor laws and the Company's regulations.

Bonus Policy:

Annually, the Company's Bonus and Emulation Council holds a meeting to assess and rank employees based on their task completion level as a basis for year-end rewards. Additionally, based on business performance, the Board of Directors submits a proposal to the General Meeting of Shareholders for approval of the establishment of the Bonus and Welfare Fund. This fund is used to reward employees on major holidays, recognize outstanding employees and groups with innovative ideas that benefit the Company, and more.

Welfare Policy:

In addition to salary and bonus policies, the Company also pays attention to the spiritual well-being of employees by coordinating with the Trade Union to organize annual sightseeing and vacation trips as well as periodic health check-ups.

The collective labor agreement has been developed and registered with the labor management agency in accordance with legal regulations. The Company fully implements social insurance (SI), health insurance (HI), and unemployment insurance (UI) for employees who are subject to compulsory social insurance, ensuring complete and timely contributions to the Ho Chi Minh City Social Insurance Agency.

The Company also provides 24/7 accident insurance for all employees, renewed annually.

CHAPTER 04: ASSESSMENT OF THE BOARD OF DIRECTORS ON THE COMPANY'S OPERATIONS

- ❖ ASSESSMENT OF THE BOARD OF DIRECTORS ON VARIOUS ASPECTS OF THE COMPANY'S OPERATIONS
- ❖ ASSESSMENT OF THE BOARD OF DIRECTORS ON THE PERFORMANCE OF THE BOARD OF GENERAL DIRECTORS
- ❖ PLANS AND ORIENTATIONS OF THE BOARD OF DIRECTORS

1. Assessment of the Board of Directors on Various Aspects of the Company's Operations:

a. Results of Business Performance Indicators

The Board of Management proactively implemented the resolutions of the General Meeting of Shareholders and strictly followed the instructions of the Board of Directors in managing business and production activities. As a result, revenue in 2025 reached 98.1% of the planned target, and profit after tax reached 87.8% of the approved plan.

b. Project Management, Operation, and Investment Research

Project management and operation:

- The project companies have effectively carried out management and operation at toll stations, ensuring accurate and sufficient toll collection in accordance with BOT contracts and relevant legal documents. The electronic toll collection (ETC) system has continued to operate efficiently, contributing to reduced congestion and improved transparency in toll collection activities.
- Revenue monitoring and cash flow control have been strictly implemented, ensuring full integration with the parent company's centralized management system. Operation reports are prepared regularly on a daily, monthly, and quarterly basis, accurately reflecting traffic volume, revenue, arising issues, and proposed solutions.
- Routine maintenance, periodic maintenance, major repairs, and emergency repairs across projects in 2025 have been carried out in accordance with approved plans from state authorities and BOT contract requirements.

Project development activities:

- The Company has coordinated with its parent company – Ho Chi Minh City Infrastructure Investment Joint Stock Company (CII) – to conduct research on new projects, complete project proposals, and prepare bidding documents for projects submitted to competent state authorities for approval.
- Preparation of bidding documents and project proposals has been carried out strictly in compliance with legal procedures and regulations, enhancing the Company's competitiveness..

c. Financial activities:

- The Company has completed the issuance of shares to existing shareholders in accordance with the share offering plan approved by the General Meeting of Shareholders.
- It has also completed the 2024 dividend payment at a rate of 12% to shareholders.
- In addition, the Company has ensured adequate funding to support the implementation of its projects.

2. The Board of Directors' assessment of the performance of the Board of Management, along with the Board of Directors's plans and directions.

a. Assessment of the Board of Directors on the performance of the Board of Management:

In 2025, amid significant macroeconomic fluctuations, the Board of Directors acknowledged and highly appreciated the strong efforts and decisive management of the Executive Board in implementing the resolutions of the General Meeting of Shareholders and the Board of Directors. Specifically:

- The Executive Board closely followed the business plan approved by the General Meeting of Shareholders, proactively developed flexible management solutions in line with market developments, effectively optimized costs, managed cash flows, ensured the ability to meet financial obligations, and maintained the continuous and stable operation of the Company.
- It effectively implemented the restructuring of the funding portfolio, optimized borrowing costs, and negotiated extensions and restructuring of loan facilities, thereby ensuring financial safety and enhancing the Company's financial capacity.
- The Executive Board strictly complied with corporate governance regulations, adhering to the Enterprise Law, Securities Law, and other relevant legal regulations. Financial statements, periodic reports, and ad-hoc reports were prepared and disclosed fully, promptly, and transparently to shareholders and investors.
- It ensured full performance of its functions and duties in accordance with the Company Charter, and timely reported and advised the Board of Directors on key decisions aligned with the Company's development orientation.

b. Plans and orientations of the Board of Directors

In 2026, the Board of Directors will focus on directing the following key activities:

- Organizing the Annual General Meeting of Shareholders for the 2025 fiscal year.
- Leading and directing the Executive Board to effectively achieve the 2026 business and production targets.
- Instructing the Executive Board to continue researching and proposing new projects for submission to the Board of Directors for investment policy approval.
- Directing the Executive Board to prepare resources to participate in bidding for toll collection rights of expressway projects funded by the State budget.
- Continuing supervisory activities over the General Director, members of the Executive Board, and the business operations of subsidiaries.
- Continuing organizational restructuring to improve operational efficiency and meet the Company's development requirements.

CHAPTER 05: CORPORATE GOVERNANCE ACTIVITIES IN 2025

STATEMENT OF THE BOARD OF MANAGEMENT (continued)

THE BOARD OF MANAGEMENT'S STATEMENT OF RESPONSIBILITY

The Board of Management of the Company is responsible for preparing the consolidated financial statements, which give a true and fair view of the consolidated financial position of the Company as at 31 December 2025, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to consolidated financial reporting. In preparing these consolidated financial statements, the Board of Management is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether applicable accounting principles have been followed, subject to any material departures disclosed and explained in the consolidated financial statements;
- prepare the consolidated financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business; and
- design and implement an effective internal control system to properly prepare and present the consolidated financial statements to minimize errors and frauds.

The Board of Management is responsible for ensuring that proper accounting records are kept, which disclose, with reasonable accuracy at any time, the consolidated financial position of the Company and that the consolidated financial statements comply with Vietnamese Accounting Standards, accounting regime for enterprises, and legal regulations relating to consolidated financial reporting. The Board of Management is also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of frauds and other irregularities.

The Board of Management confirms that the Company has complied with the above requirements in preparing these consolidated financial statements.

For and on behalf of the Board of Management,

Nguyen Van Chinh
General Director

Ho Chi Minh City, 26 March 2026

No. 2387/2026/BCKT-ICPA.SG

INDEPENDENT AUDITORS' REPORT

To: **Shareholders**
The Board of Directors and the Board of Management
CII Bridges and Roads Investment Joint Stock Company

We have audited the accompanying consolidated financial statements of CII Bridges and Roads Investment Joint Stock Company (hereinafter referred to as "the Company"), prepared on 26 March 2026 as set out from page 4 to page 65, which comprise the consolidated balance sheet as at 31 December 2025, the consolidated statement of income and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements.

The Board of Management's Responsibility

The Board of Management is responsible for the preparation and presentation of these consolidated financial statements in accordance with Vietnamese Accounting Standards, accounting regime for enterprise and prevailing relevant regulations in the consolidated financial statement preparation and disclosure and for such internal control as the Board of Management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Company's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements give a true and fair view, in all material respects, of the consolidated financial position of the Company as at 31 December 2025, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to consolidated financial reporting.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2025

I. GENERAL INFORMATION**Structure of ownership**

CII Bridges and Roads Investment Joint Stock Company (hereinafter referred to as "the Company") was transformed from Lu Gia Mechanical Company, a state-owned company incorporated in 1978, under Decision No. 8032/QD-UB-KT dated 28 December 1999 of the People's Committee of Ho Chi Minh City. The Company operates under the Enterprise Registration Certificate No. 0300482241 dated 8 March 2000, initially issued by the Department of Finance (formerly the Department of Planning and Investment) of Ho Chi Minh City, and subsequently amended with the latest amendment was the 24th amendment dated 25 December 2025 relating to charter capital increase and a change of the Company's head office address.

The Company's Parent company is Ho Chi Minh City Infrastructure Investment Joint Stock Company ("CII"), headquartered at 12th floor, 152 Dien Bien Phu, Thanh My Tay ward, Ho Chi Minh City, Vietnam. The proportion of ownership of the Parent Company is 54.84%, comprising a direct ownership of 47.81% and an indirect ownership through CII's subsidiaries, namely CII Trading Investment Limited Liability Company (formerly CII Trading and Investment One Member LLC.) and CII Services and Investment One Member Limited Liability Company, with ownership interests of 4.99% and 2.04%, respectively.

The Company's charter capital is VND 2,121,303,080,000, divided equally into 212,130,308 shares, par value per share is VND 10,000.

The Company's head office is located at 21st floor, 152 Dien Bien Phu, Thanh My Tay ward, Ho Chi Minh City, Vietnam.

The Company's international name: is CII Bridges & Roads Investment Joint Stock Company, abbreviated name is CII Bridges And Roads.

The Company's shares are officially listed on the Ho Chi Minh City Stock Exchange, stock code: LGC.

The total number of employees of the Company as at the end and the beginning of the year was 283 people.

Business sector

The Company operates in various business sectors.

Operating industries and principal activities

Operating industries of the Company: manufacture, repair of electrical equipment; architectural activities and technical consultancy; wholesale of construction materials, other installation equipment; manufacture of metal components; installation of electrical systems; other business support services; vocational education; wholesale of machinery and other machine parts; real estate business, including ownership, use rights or lease; coastal and ocean freight transport; inland waterway, road freight transport; operation of sports facilities and clubs; advertising; water exploitation, treatment and supply; installation of water supply and drainage systems, heating and air-conditioning systems; demolition; construction of public utility works; construction of railways and roads, residential and non-residential buildings, civil engineering works.

The Company's principal activities are investing in construction and operating in urban technical infrastructure under build-operate-transfer (B.O.T); construction and installation of public lighting equipment systems, and maintenance of public works.

Normal operating cycle

The production and business cycle of the Company's investment activity starts from applying for an investment license, carrying out site clearance, and construction until completion. Therefore, the investment activity's business cycle is estimated from 24 months to 60 months.

The production and business cycle of other activities of the Company is normally carried out in a period not exceeding 12 months.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2025

I. GENERAL INFORMATION (continued)**Characteristics of the business activities in the year which have impact on the consolidated financial statements**

In the year, the Company successfully issued 19,275,543 shares to existing shareholders, thereby increasing its charter capital from VND 1,928,547,650,000 to VND 2,121,303,080,000 in accordance with Resolution No. 01/2025/NQ-DHDCD dated 22 April 2025 of the Annual General Meeting of Shareholders for the fiscal year 2024 and Resolution No. 02/2025/NQ- DHDCD dated 15 July 2025 of the first Extraordinary General Meeting of Shareholders of 2025. The Company subsequently listed the additional shares on the Ho Chi Minh City Stock Exchange (HOSE) and completed the amendment of its Enterprise Registration Certificate to reflect the increase in charter capital on 25 December 2025.

In accordance with the investment portfolio restructuring approved by the Board of Directors of CII in 2024, during the year, CII transferred 3.85 million shares of the Company to CII Trading and Investment Co., Ltd. (formerly CII Trading and Investment One Member Co., Ltd. - "CII Invest") and 2.70 million shares to CII Service and Investment One Member Co., Ltd. ("CII Service"). As a result, CII now directly owns 47.81% and indirectly owns 4.99% and 2.04% of voting rights in the Company through CII Invest and CII Service, respectively.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2025

I. GENERAL INFORMATION (continued)**The Company's structure** (continued)

- (i) According to the agreement between the Company, CII, and relevant shareholders signed on 8 December 2015, CII will be responsible for all obligations and also enjoy all rights and benefits arising from the equity investment in Trung Luong - My Thuan BOT Joint Stock Company.
- (ii) On 24 April 2025, the Company acquired an additional 0.01% of the share capital of Hien An Binh Bridges and Roads Joint Stock Company, increasing its ownership interest in this subsidiary from 99.99% to 100%. Accordingly, Hien An Binh Bridges and Roads Joint Stock Company converted its legal form from a joint stock company to a single-member limited liability company.

Disclosure of information comparability in the consolidated financial statements

The comparative figures were presented in consolidated financial statements for the year ended 31 December 2024. The Company has consistently applied accounting policies in accordance with applicable accounting standards, the accounting regime, and relevant legal regulations in preparing and presenting the consolidated financial statements. Therefore, the information presented on the consolidated financial statements are comparable.

II. ACCOUNTING CONVENTION AND FINANCIAL YEAR**Accounting convention**

The accompanying consolidated financial statements, expressed in Vietnamese Dong (VND), are prepared under the historical cost convention and in accordance with Vietnamese Accounting Standards, accounting regimes for enterprises, and legal regulations relating to consolidated financial reporting.

The accompanying consolidated financial statements are not intended to present the consolidated financial position, results of consolidated operations, and consolidated cash flows in accordance with accounting principles and practices generally accepted in countries and jurisdictions other than Vietnam.

Financial year

The Company's financial year begins on 01 January and ends on 31 December.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2025

III. APPLIED ACCOUNTING STANDARDS AND ACCOUNTING REGIME**Accounting standards and accounting regime currently applied**

The Company's Board of Management ensures to comply with the requirements of Vietnamese Accounting Standards, the accounting regime for enterprises promulgated under Circular No. 200/2014/TT-BTC dated 22 December 2014 by the Ministry of Finance guiding the accounting regime for enterprises; Circular No. 53/2016/TT-BTC dated 21 March 2016 by the Ministry of Finance amending and supplementing some articles of Circular No. 200/2014/TT-BTC, Circular No.202/2014/TT-BTC dated 22 December 2014 guiding on preparation and presentation of consolidated financial statements and circulars guiding the implementation of accounting standards of the Ministry of Finance in preparing and presenting consolidated financial statements.

New accounting guidance issued but not yet effective

On 27 October 2025, the Ministry of Finance issued Circular No. 99/2025/TT-BTC ("Circular 99") providing guidance on the enterprise accounting regime. Circular 99 is effective from 01 January 2026 and applies to financial years beginning on or after that date. Circular 99 replaces Circular No. 200/2014/TT-BTC dated 22 December 2014, Circular No. 53/2016/TT-BTC dated 21 March 2016 and other relevant regulations.

The Company's Board of Management is currently assessing the impact of this Circular on the Company's consolidated financial statements for subsequent accounting periods.

IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies, which have been adopted by the Company in the preparation of these consolidated financial statements, are as follows:

Estimates

The preparation of consolidated financial statements in conformity with Vietnamese Accounting Standards, accounting regime for enterprises, and legal regulations relating to consolidated financial reporting requires the Board of Management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the year. Although these accounting estimates are based on the Board of Management's best knowledge, actual results may differ from those estimates.

Basis of consolidation

The consolidated financial statements incorporated the separate financial statements of the Company and enterprises controlled by the Company (its subsidiaries) up to 31 December each year. Control is achieved where the Company has the power to govern the financial and operating policies of an investee enterprise so as to obtain benefits from its activities.

The results of operations of subsidiaries acquired or disposed of during the year are included in the consolidated income statement from the effective date of acquisition or up to the effective date of disposal, as appropriate.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring the accounting policies used in line with those used by the Company.

Intra-group transactions and balances are eliminated in full-on consolidation financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2025

IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**Basis of consolidation (continued)**

Non-controlling interests in the net assets of consolidated subsidiaries are identified consolidated from the parent's ownership interests in them and presented as an item of the owner's equity in consolidated balance sheet. Non-controlling interests consist of the amount of those non-controlling interests at the date of the original business combination (see below) and the non-controlling interests' share of changes in equity since the date of the combination. Losses in subsidiaries are respectively attributed to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Business combinations

On acquisition, the assets and liabilities and contingent liabilities of a subsidiary are measured at their fair values at the date of acquisition. Any excess of the cost of acquisition over the fair values of the identifiable net assets acquired is recognised as goodwill. Any deficiency of the cost of acquisition below the fair values of the identifiable net assets acquired is credited to profit and loss in the accounting period of acquisition.

In case prior to the date that control is obtained, the Company does not have a significant influence on the subsidiary and the investment is presented at cost, when preparing the consolidated financial statements the Company will remeasure its investment in the acquiree at its acquisition-date fair value. The difference between the revalued amount and the cost of investment is recognised in the consolidated income statement.

In case prior to the date that control is obtained, the investment is an investment in an associate or joint venture of the Company and is presented under the equity method, when preparing the consolidated financial statements the Company will remeasure its previously held equity interest in the acquiree at its acquisition-date fair value. The difference between the revalued amount and the value of investment under the equity method is recognised in the consolidated income statement.

The non-controlling interests are initially measured at the non-controlling shareholders' proportion of the net fair value of the assets, liabilities, and contingent liabilities recognised.

The effect of transactions resulting in changes in the Company's ownership interest in the subsidiaries without loss of control is recorded directly in the retained earnings in the consolidated balance sheet.

Goodwill

Goodwill represents the excess of the cost of acquisition over the Company's interest in the net fair value of the identifiable assets, liabilities, and contingent liabilities of a subsidiary, associate, or jointly controlled entity at the date of acquisition.

Goodwill arising on the acquisition of a subsidiary is recognised as an asset, is presented separately as an intangible asset in the consolidated balance sheet, and is amortised on a straight-line basis over its estimated period of benefit of 10 years. The Company conducts the periodical review for impairment of goodwill of investments in subsidiaries. If there are indicators that the impairment loss incurred is higher than the yearly allocated amount of goodwill on a straight-line basis, the higher amount will be recognised in the consolidated income statement.

Goodwill arising on the acquisition of associates and jointly controlled entities is included in the carrying amount of the associates and jointly controlled entities. The Company does not amortise this goodwill.

On disposal of a subsidiary, associate, or jointly controlled entity, the attributable amount of unamortised goodwill is included in the determination of the profit or loss on disposal.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2025

IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**Bargain purchase gain**

Bargain purchase gain represents the excess of the Company's interest in the net fair value of the identifiable assets, liabilities, and contingent liabilities of a subsidiary, associate, or jointly controlled entity at the date of acquisition over the cost of acquisition. Bargain purchase gain is immediately recognised in the consolidated income statement at the acquisition date.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits and short-term bank deposits, highly liquid investments, which are matured within three months commencing on the transaction date, readily convertible to known amounts of cash, and which are subject to an insignificant risk of changes in value.

Held-to-maturity investments

Held-to-maturity investments comprise investments that the Company has the positive intent or ability to hold to maturity, including term deposits of more than three months (commercial bills), bonds, and preference shares which the issuer shall redeem at a certain date in the future and other held-to-maturity investments.

Held-to-maturity investments are recognised on a trade date basis and are initially measured at acquisition price plus directly attributable transaction costs. Post-acquisition interest income from held-to-maturity investments is recognised in the consolidated statement of income on an accrual basis. Pre-acquisition interest and other economic benefits are deducted from the cost of such investments at the acquisition date.

When there is specific evidence that a part or all of the investment may not be recoverable and the amount of loss can be measured reliably, the loss is recognised in financial expenses during the year and directly reduced to the investment value.

Held-to-maturity investments are measured at cost less provision for doubtful debts.

Provision for doubtful debts relating to held-to-maturity investments is made in accordance with prevailing accounting regulations.

Trade receivables

Receivables represent the amounts recoverable from customers or other debtors and are stated at book value less provision for doubtful debts.

Provision for doubtful debts is made for overdue receivables stated in economic contracts, loan agreements, contractual commitments or debt commitments, and outstanding receivables that are doubtful of being recovered. Provision for overdue receivables is made based on overdue days in payment of principals following the initial economic contract, exclusive of the rescheduling of debts between contracting parties, provision for outstanding receivables is made when the debtor is in bankruptcy or is doing procedures to dissolve, missing, escaped.

An increase or decrease in provision for doubtful debts at the closing date is recognised in general and administration expenses in the year.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2025

IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**Loan receivables**

Loan receivables present the loans under agreements that are not traded on the market as securities.

Loan receivables are measured at cost less provision for doubtful debts. Provision for doubtful debts relating to loan receivables is made based on expected losses that may arise.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost comprises direct materials and, where applicable, direct labor costs and those overheads that have been incurred in bringing the inventories to their present location and condition. Cost is calculated using the weighted average method. The net realisable value represents the estimated selling price less all estimated costs to completion and expenses incurred in marketing, selling, and distribution.

Provision for devaluation of inventories is made in accordance with prevailing accounting regulations, which allow provision to be made for obsolete, damaged, or sub-standard inventories and for those that have costs higher than net realisable values as of the reporting date. The provision for devaluation of obsolete, damaged, or sub-standard inventories is not included in deductible expenses for the calculation of corporate income tax until such inventories are disposed.

An increase or decrease in the provision for devaluation of inventories at the closing date is recognised in the cost of sales in the year.

Prepayments

Prepayments include actual costs that have arisen but are related to the results of the operation of various accounting periods. Prepayments primarily comprise the borrowing cost of B.O.T projects, repair costs, road and bridge maintenance, and other types of prepayments.

Borrowing costs of B.O.T projects are recorded as prepaid expenses, including borrowing costs of loans directly invested in projects but not capitalised into the cost of the toll collection rights according to the decision of the competent State agency and interest expenses arising during the exploitation phase to recover investment capital. These costs are allocated to the consolidated income statement according to the rate of toll revenue when the projects are put into concession periods on the principle of preserving the equity's rate of return under B.O.T contracts.

Expenses for maintenance of bridges and roads under contractual obligations of B.O.T contracts shall be allocated within periodic maintenance work of each project.

Costs of loan procedures directly related to the Company's loans are allocated using the straight-line method within duration of the loans.

Other prepayments comprise consulting costs, quality inspection of works, and costs of small tools, issued for consumption which are expected to provide future economic benefits to the Company. These expenditures have been capitalized as prepayments and are allocated to the statement of income using the straight-line method in accordance with the prevailing accounting regulation.

Tangible fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation.

The costs of purchased tangible fixed assets comprise their purchase prices and any directly attributable costs of bringing the assets to their working condition and location for their intended use.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2025

IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**Tangible fixed assets** (continued)

The costs of self-constructed or manufactured assets are the actual construction or manufacturing costs plus installation and test running costs.

Tangible fixed assets are depreciated using the straight-line method over their estimated useful lives, as follows:

	<u>Years</u>
Buildings and structures	10 - 50
Machinery and equipment	5 - 20
Motor vehicles, transmissions	5 - 10
Office equipment	3 - 8

Loss or gain resulting from sales and disposals of tangible fixed assets is the difference between profit from sales or disposals of assets and their residual values and is recognised in the consolidated statement of income.

Intangible fixed assets

Intangible assets are stated in the consolidated balance sheet at cost less accumulated amortisation.

The Company's intangible fixed assets comprise toll collection rights, land use rights, and computer software.

Toll collection rights are obtained from the B.O.T contracts signed between the Company and authorised agencies of the State. Its cost is determined by the final settlement value based on directly attributable costs of the project and approved by the State agencies. Toll collection rights are amortised using the method of proportion to revenue in accordance with the duration of exploitation and toll collection. The Company will adjust the amortisation rate when the project's financial plan changes due to updating the cash flow from tolls according to the actual traffic volume on the principle of preserving the equity's rate of return under B.O.T contracts.

Toll collection rights obtained in an acquisition of a subsidiary are also capitalised and recognised as intangible fixed assets. The fair value of the assets acquired in a business combination is based on discounted estimated future cash flows from toll revenue. Its fair value is assessed after deducting fair returns on all other assets that contribute to generating the cash flows. The excess of the fair value of the toll right over its carrying amount is amortised using the straight-line method over the remaining period of toll concession.

Land use rights with definite useful terms are amortised over granted using lives. Land use rights with the indefinite term are not amortised as prevailing regulation.

Computer software is amortised using the straight-line method within 3 to 8 years.

Loss or gain resulting from sales and disposals of intangible fixed assets is the difference between profit from sales or disposals of assets and their residual values and is recognised in the consolidated statement of income.

Construction in progress

Properties in the course of construction for production, rental, or administrative purposes, or the purposes not yet determined, are carried at cost. Cost includes professional fees and for qualifying assets, borrowing costs dealt with under the Company's accounting policy. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2025

IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**Payables**

Accounts payable are monitored in detail by payable terms, payable parties, original currency, and other factors depending on the Company's managerial requirements. Accounts payable to suppliers include trade payables arising from buying-selling transactions and payables for import through trustees (in import entrustment transactions). Other payables include non-trade payables not related to buying-selling transactions. Accounts payable are classified as short-term and long-term in the consolidated balance sheet based on the remaining period of these payables at the reporting date.

Accrued expenses

Accrued expenses are recognised for amounts to be paid in the future for goods and services received, whether or not billed to the Company or lack of accounting document, which are recorded to operating expenses of the reporting period.

Borrowings and finance lease liabilities

Borrowings and finance lease liabilities including loans, finance lease debts, excluding loans in the form of bonds or preferred shares with provisions that oblige the issuer to repurchase at a certain time in the future. The Company records borrowings in detail by debtors and classifies them into short-term and long-term borrowings based on their remaining period from the balance sheet date to the maturity date.

Costs directly attributable to borrowings are recognised as financial expenses, except for costs incurred on a particular loan for investment, construction, or production of an asset in progress, which are capitalised under the accounting standard "Borrowing costs".

Straight bond issued

Bonds are issued as long-term borrowings.

Carrying value of straight bonds is recorded on net basis, equal to bonds' nominal amount less (-) Bond discount plus (+) Bond premium.

The Company accounts for the issued bonds' discount and premium individually and recognises their amortisation for the purpose of determining borrowing costs which are recorded as expenses or capitalised during each period, as follows:

- Bond discount is amortised gradually during bonds' life, accounted for as borrowing costs;
- Bond premium is amortised gradually during bonds' life, reducing borrowing costs;

Straight-line method: the amount of discount or premium for each period is equally amortised during bonds' life

Costs directly attributable to the issuance of straight bond are initially recorded as a deduction from the principal of the straight bond. Periodically, such costs are allocated under the straight-line method over the term of the bond by increasing the principal and corresponding borrowing cost.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2025

IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**Owners' equity recognition**

Owners' equity is recognised by actual capital contributions from shareholders.

Share premium is recognised at the greater or smaller difference between issuing price and par value of shares upon the initial public offering, additional issue, or re-issue of treasury shares. Costs directly attributable to the issuance of new shares and the re-issuance of treasury shares are deducted share premium.

Retained earnings are recognised by operating results less (-) current corporate income tax expense and adjustments due to the retrospective application of changes in accounting policies and the retrospective adjustments for material misstatements of prior periods.

Dividends are announced and paid in the following year based on approval in the Annual General Meeting of the Company. Dividends shall be recognised in the consolidated balance sheet when the declaration is officially sent to shareholders of the Company.

Appropriation of reserves and funds from profit after tax is based on the Company's ordinance and approval in the Annual General Meeting.

Revenue recognition*Revenue from sales of goods*

Revenue from the sales of goods is recognised when all five (5) following conditions are satisfied:

- (a) The Company has transferred to the buyer the significant risks and rewards of ownership of the goods;
- (b) The Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- (c) The amount of revenue can be measured reliably. Where the sale contract stipulates that the buyer is entitled to return the purchased products or goods under specific conditions, revenue is recognized only when those specific conditions no longer exist, and the buyer is not entitled to return products and goods (except for cases where customers have the right to return goods in the form of exchange for other goods or services);
- (d) The Company has received or will probably receive economic benefits associated with the transaction; and
- (e) The costs incurred or to be incurred in respect of the transaction can be measured reliably.

Revenue from services rendered

Revenue from rendering services of a transaction involving the rendering of services is recognised when the outcome of such transactions can be measured reliably. Where a transaction involving the rendering of services is attributable to several periods, revenue is recognised in each period by reference to the percentage of completion of the transaction at the balance sheet date of that period. The outcome of a transaction can be measured reliably when all four (4) following conditions are satisfied:

- (a) The amount of revenue can be measured reliably. Where the contract stipulates that the buyer is entitled to return the purchased service under specific conditions, revenue is recognised only when those specific conditions no longer exist and the buyer is not entitled to return the service rendered provided;
- (b) It is probable that the economic benefits associated with the transaction will flow to the Company;
- (c) The percentage of completion of the transaction at the consolidated balance sheet date can be measured reliably; and
- (d) The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2025

IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)*Tolling revenue*

Tolling revenue is recognised based on the sales of tickets at the rates stipulated by the State on each specific route that the Company is allowed to toll to recover its investment in B.O.T projects.

Income of capital preservation from B.O.T projects

Income of capital preservation from B.O.T projects is recognised on an accrual basis, determined by the outstanding balance of the owners' capital paid in the projects and the rate of return specified in each B.O.T contract. This profit will be gradually deducted from the annual traffic fee revenue of the project. The Company applies the guidance of the Ministry of Finance No.6070/BTC-CST 15 May 2013 in recognition of this equity preservation interest.

Financial income

Interest income is accrued on a time basis by reference to the principal outstanding and at the applicable interest rate unless the recovery of interest is uncertain.

Dividends and profits from investments are recognised when the Company's right to receive payment has been established. When the investors receive stock dividends, they only record the number of additional shares, not the income from stock dividends.

Construction contract

Revenue and expenses of construction contracts are recognised as follows:

When the outcome of a construction contract can be estimated reliably:

- For construction contracts stipulating that the contractors are permitted to make payments under schedule, contract revenue and contract costs associated with the construction contract shall be recognised as revenue and expenses, respectively, by reference to the completion stage of the contract activity at the end of the financial year.
- For construction regulating that the contractors are permitted to make payments equivalently to the percentage of work certified by customers, contract revenue and contract costs associated with the construction contract shall be recognised as revenue and expenses, respectively, by reference to the completed work confirmed by the customers and reflected on the invoice.

Revenue from alternations in the original contract work, compensation, claims, and incentive payments are recognised only when agreed with the customers.

When the outcome of a construction contract cannot be reliably estimated:

- Contract revenue should be recognised only to the extent that contract costs are expected to be recoverable.
- Contract costs should be expensed as incurred.

The difference between accumulated contract revenue and the accumulated amount recorded in the payment invoice according to the billing progress of the contract is recognised as a contract asset or contract liability.

Cost of sales recognition*Cost of tolling revenue*

The cost of tolling revenue includes depreciation expenses of toll collection rights and other direct expenses related to the operation of road projects under B.O.T contracts, such as operating costs, maintenance and repair costs, major repair costs, and other expenses.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2025

IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**Cost of sales recognition** (continued)

Cost of goods sold and services rendered are recorded at the actual incurred amount and aggregated by the value and quantity of finished goods, merchandise, and materials sold and services rendered to customers, conforming to the matching principle and the precautionary principle. The costs exceeded normal levels of inventory, and services were recognised immediately in operating results in the year.

Borrowing costs

Borrowing costs are recognised in the consolidated statement of income in the period when incurred unless they are capitalized under the Vietnamese accounting standard "Borrowing costs". Accordingly, borrowing costs directly attributable to the acquisition, construction, or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets until the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the cost of those assets.

Borrowing costs, which incur during the toll collection period of B.O.T projects, are allocated by the proportion of tolling revenue if the Company is the initial investor of the project or recognised at the actual cost incurred if the Company acquires the projects.

For specific borrowings for construction of fixed assets and investment properties, borrowing costs are capitalised even when the construction period is less than 12 months.

Business cooperation agreement

Business cooperation agreements are agreements between the Company and its partners by contract to jointly carry out business activities but do not establish independent legal entities and are controlled by one of the parties. Profit sharing for partners is recorded in the consolidated statement of income.

Taxation

The income tax expense represents the sum of tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the consolidated statement of income because it excludes items of income or expense that are taxable or deductible in other periods (including loss carried forward, if any), and it further excludes items that are never taxable or deductible.

Deferred tax is recognised on significant differences between carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all temporary differences, and deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which temporary deductible differences can be utilised.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised. Deferred tax is charged or credited to profit or loss, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2025

IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Other taxes are paid in accordance with the prevailing tax laws in Vietnam.

The determination of the tax currently payable is based on the current interpretation of tax regulations. However, these regulations are subject to periodic variation, and their ultimate determination depends on the results of the tax authorities' examinations.

Related parties

The enterprises, associates, and individuals are considered to be related to the Company if one party has the ability, directly or indirectly through one or more intermediaries, to control over the other party or is under the control of the Company or joint control with the Company; the associates and individuals directly or indirectly holding the voting power over the Company that exercises significant influence over the Company. Related parties may be the key management personnel, the General Director, and officers of the Company. Close family members of any individuals or associates herein or associates of these individuals are also considered related parties.

In considering the relationship of each related party, the substance of the relationship is noted over the legal form.

Earnings per share

Basic earnings per share is calculated by dividing post-tax profits or loss attributable to ordinary shareholders (after adjusting for appropriation for bonus and welfare funds) by weighted average number of ordinary shares in circulation during the year.

Diluted earnings per share is calculated by dividing post-tax profits or loss attributable to ordinary shareholders (after adjustment for dividends of preference shares) by the weighted average number of ordinary shares in circulation during the year and the weighted average number of ordinary shares to be issued in the case that all dilutive potential ordinary shares are converted into ordinary shares.

Segment report

A segment is a distinguishable part of the Company involved in the provision of related products or services (by business segment) or in the provision of products or services within a particular economic environment (geographical area), which is subject to risks and returns that are different from those of other segments. The Board of Management believes that the Company operates in its business segments of investment under B.O.T contracts, traffic tolling, installation of construction work, and other activities and operating in many geographical areas, including the following provinces and cities: Ho Chi Minh City (formerly including Ho Chi Minh City and Binh Duong Province), Dong Thap Province (formerly Tien Giang province), Khanh Hoa province (formerly Ninh Thuan province), Vinh Long province (formerly including Ben Tre and Tra Vinh provinces). The segment report is prepared based on the type of business and geographical areas.

Total of loan receivables	437,990,434,770	594,019,370,466

The closing balance reflects receivables from Ho Chi Minh City Infrastructure Investment Joint Stock Company (CII), which includes:

- The financial support under the contract signed on 26 September 2023 and its appendices amounts to VND 100 billion, with a term of 12 months and maturing on 26 September 2026. The interest rate is 6.0% per annum and without collateral. The purpose of the financial support is to supplement working capital. The closing balance is VND 72,394,600,053.
- The investment cooperation under the contract and appendix, with a limit of VND 100 billion, maturing on 06 June 2026, aims to execute and develop business activities. The Company is entitled to a profit margin of 8.5% per annum on the transferred collaboration funds. The closing balance is VND 55 billion.
- The investment cooperation under the contract and its appendices amounts to VND 323 billion, maturing on 18 December 2026, aims to execute and develop business activities. The Company is entitled to a profit margin of 6% per annum on the transferred collaboration funds. The closing balance is VND 277,408,042,836.

The financial support for Tuan Loc Construction Investment Corporation following a three-year term contract from 08 April 2024 was for paying the value of purchased shares of BOT Trung Luong My Thuan JSC. The applicable interest rate for the year was 8.5% per annum. This financial support is guaranteed by the number of purchased shares and accompanying benefits of Tuan Loc in BOT Trung Luong My Thuan JSC.

(i) Details of borrowing costs of BOT projects:

Trung Luong - My Thuan Expressway Project Phase 1	1,232,155,258,285	1,076,853,171,639
1A National Road expansion, section through Ninh Thuan Province	1,225,942,384,937	1,065,270,851,532
Ha Noi Highway expansion project	905,428,963,471	757,488,866,556
Co Chien Bridge project	289,212,487,242	293,796,306,256
Project of upgrade and expansion of 4 sections of 60 National Road	216,078,201,462	178,646,289,529
Total	3,868,817,295,397	3,372,055,485,512

Interest expense on loans of B.O.T projects will be allocated to the consolidated income statement according to the toll revenue. The current allocation rate of interest expenses of the Trung Luong - My Thuan Expressway phase 1 is 41.9% (the allocation rate of previous year was 34.78%); the National Highway 1 expansion project, the section through Ninh Thuan province, phase 2 is 7.78% (the allocation rate of previous year was 17.95%); the Hanoi Highway Expansion Project is 5% (the allocation rate of previous year was 7%); the Co Chien bridge project is 28% (the allocation rate of previous year was 18%); the project of construction, upgrading, and expanding 4 sections of National Highway 60 is 15%.

The interest allocation ratio of projects will be adjusted when the project's financial plan changes due to updating the toll cash flow according to the actual traffic volume on the principle of preserving the equity's rate of return under B.O.T contracts.

Information about tolling B.O.T projects to recover investment is as follows:

a. Project of Trung Luong - My Thuan Expressway phase 1

The right to collect tolls to claim for investment in the project Trung Luong - My Thuan Expressway phase 1 under the B.O.T contract with cost temporarily determined as of the end of the year is VND 9,556,842,878,066. The amount is determined based on the costs spent to implement the project under the B.O.T contract No. 14/HĐ.BOT-GTVT signed on 18 November 2016 with the People's Committee of Tien Giang Province and the contract appendix. The project was officially put into toll collection at 0:00 am on 9 August 2022. According to the financial plan in the 2019 B.O.T contract appendix, the Company is entitled to collect tolls for about 14 years and 8 months. This concession period will be officially settled with the competent State agency based on ensuring the equity interest rate for investors is 11.5%/year.

The Company amortises this right in proportion to revenue in the period at the rate of 30.18%.

On the acquisition date of BOT Trung Luong - My Thuan Joint Stock Company ("project company"), the Company measured the fair value of net assets of this subsidiary. Accordingly, this revaluation resulted in an increase in the fair value of toll collection right by VND 691,728,230,913. This was the excess of the revaluated amount using discounted future cash inflows from tolling over the carrying amount of the subsidiary's net assets at the acquisition date. The fair value had been only recognised in the consolidated financial statements without any adjustments to the carrying amount of the asset in the subsidiary's financial statements. The added value due to revaluation is amortized on a straight-line method within 13 years and 6 months, corresponding to the remaining time of toll collection since the acquisition date of the subsidiary.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2025

V. INFORMATION SUPPLEMENTING THE ITEMS IN THE CONSOLIDATED BALANCE SHEET
(continued)**11. Intangible fixed assets** (continued)**b. Project of Hanoi highway expansion**

The right to collect tolls to claim for investment in the project of expansion Hanoi Highway and 1 National Road, the section from the old Station 2 junction to the Tan Van intersection under B.O.T contract with cost temporarily determined as of the end of the year is VND 3,589,403,280,563. The amount is determined based on the costs spent to implement the project under the B.O.T contract signed on 25 November 2009 with the Department of Transport of Ho Chi Minh City and the contract appendix B.O.T signed with the People's Committee of Ho Chi Minh City dated 9 July 2018. The project was officially put into toll collection at 0:00 am on 1 April 2021. According to the B.O.T contract and its appendix, the Company is entitled to collect tolls for about 17 years and 9 months. This concession period will be officially settled with the competent State agency based on ensuring the equity interest rate for investors is 14% per annum, including construction investment phase.

The Company amortises this right in proportion to revenue in the year at the rate of 9% (the previous year's amortisation rate is 15.35%).

c. Project of 60 National Road expansion connecting Ben Tre Province and Tra Vinh Province

The Company is allowed to collect tolls for Rach Mieu bridge to recover its investment in the project of 60 National Road expansion connecting Ben Tre province and Tra Vinh province. The cost of this toll collection right is temporarily recognised as VND 1,120,436,031,106 as at the end of the year. This cost shall be adjusted after the Company performs the final settlement with the State agency. The estimated toll collection period is about 14 years and 8 months, starting from 0:00 am on 5 July 2021. This concession period will be officially settled with the competent State agency based on ensuring the equity interest rate for investors is 11.5%/year. Currently, the Company is conducting procedures of investment value settlement with the competent State agency.

The toll collection right is currently amortised in proportion to revenue at 50% (the proportion of previous year was 35%).

d. Project of 1A National Road extension, section through Ninh Thuan Province

The cost of toll collection right to reclaim capital invested in the B.O.T project of 1A National Road extension, section through Ninh Thuan Province, with historical cost temporarily determined as at the end of the year is VND 1,488,940,476,885. This cost comprises all directly attributable expenditures paid to the project under the B.O.T contract signed with the Ministry of Transport dated 8 December 2014. Ca Na station has officially put into the tolling period since 0:00 am on 1 April 2017 to reclaim capital for this project in parallel with the project of 1A National Road extension, section through Phan Rang - Thap Cham city (noted below) under the direction of the Ministry of Transport and the Ministry of Finance. According to the B.O.T contract and its appendix, the estimated toll collection period is about 19 years and 7 months, this concession period will be officially settled with the competent State agency based on ensuring the equity interest rate for investors is 12%/year.

The toll collection right is currently amortised in proportion to revenue at 2.54% (the proportion of previous year was 12.28%).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2025

V. INFORMATION SUPPLEMENTING THE ITEMS IN THE CONSOLIDATED BALANCE SHEET
(continued)**11. Intangible fixed assets** (continued)**e. Project of DT 741 road upgrade and expansion**

The toll collection right has been granted to the Company to reimburse its investment in the construction of DT 741 Road expansion - Binh Duong Province, the section from Km 0 + 000 to Km 49 + 670.4 with the cost as of the end of the year was VND 698,254,877,278. This cost comprises all directly attributable expenditures paid to the project under the B.O.T contract signed with the People's Committee of Binh Duong Province on 09 September 2009. Road toll station DT741 was officially put into toll collection for the return of investment in the Km 21 + 000 to Km 49 + 670.4 section from 01 August 2006. The Km 0 + 000 to Km 21 + 000 section was built in 2009 and officially put into operation on 01 September 2011. According to the B.O.T contract and its appendix, it is expected that the Company has the right to toll in about 30.81 years. This concession period will be officially settled with the competent State agency based on ensuring the equity interest rate for investors temporarily calculated at the time of contract signing is 8.4%/year.

The toll right is amortised in proportion to revenue at the current rate of 10.466%.

On the acquisition date of VRG Infrastructure Investment Co., Ltd., the Company measured the fair value of the net assets of this subsidiary. This revaluation resulted in an increase in the fair value of toll collection right by VND 276,430,752,980. This was the excess of the revaluated amount using discounted future cash inflows from tolling over the carrying amount of the subsidiary's net assets at the effective date. The fair value had been only recognised in the consolidated financial statements without any adjustments to the carrying amount of the asset in the subsidiary's financial statements. The added value due to revaluation is amortised on a straight-line method within 20 years and 3 months, corresponding to the remaining time of toll collection since the acquisition date of the subsidiary.

f. Project of Co Chien Bridge

The toll collection right was obtained from the acquisition of Co Chien Investment Company Limited. The Company is granted to collect toll to recover its investment in the construction of Co Chien Bridge on 60 National Road, connecting Ben Tre and Tra Vinh provinces. The cost of this right as of the end of the year is VND 752,313,769,586, which was determined by all directly attributable expenditures paid to the project according to the B.O.T contract signed with the Ministry of Transport. The project has been put into tolling since 01 September 2016. Under the B.O.T contract and its annexes, the Company is expected to collect tolls for approximately 11 years and 4 months. However, the tolling period may be adjusted to up to 16 years and 11 months under the original contract in the event of circumstances specified in the annexes. This toll collection period will be officially settled with the competent State agency to ensure that the equity interest rate for investors is 11.5%/per annum under the B.O.T contract.

The toll collection right is amortised in proportion to revenue at the current amortisation rate of 35% (the proportion of previous year was 23%).

The amortisation rates of B.O.T projects can be adjusted when the investment value in the projects is finalised by the competent State authorities or when the projects' financial plan changes due to the update of actual annual toll revenue.

The Company commits to use proceeds and other economic benefits derived from toll collection rights to secure its bank loans (see Note V.19).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2025

V. INFORMATION SUPPLEMENTING THE ITEMS IN THE CONSOLIDATED BALANCE SHEET
(continued)**11. Intangible fixed assets** (continued)**Toll collection rights awaiting liquidation***Project of 1A National Road bypass expansion, section through Phan Rang - Thap Cham*

The toll collection right to recover investment in the construction of 1A National Road bypass expansion, section through Phan Rang - Thap Cham City following the B.O.T contract signed between the Directorate for Roads of Vietnam and the Joint Venture of the Company and 577 Investment Corporation on 08 December 2008. The Company finished toll collection from 0:00 01 October 2023. As of the closing date, the Company has fully amortised the cost of this toll collection right and is currently carrying out procedures to settle the project's return toll collection value with the competent State agency. The cost of the awaiting liquidation asset is VND 575,246,181,077.

Project of Rach Mieu bridge

The Company is granted toll collection right to recover its investment in Rach Mieu bridge construction project. This project was performed under B.O.T with support from the State budget and was approved by the Minister of the Ministry of Transport. The Company finished toll collection on 05 July 2021 and is conducting project settlement procedures with the State agency. The cost of the awaiting liquidation asset is VND 495,607,637,262.

The cost of the Company's intangible fixed assets, which have been fully amortised but are still in use as of the end and the beginning of the year were VND 1,280,068,500 and VND 955,068,500, respectively.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2025

V. INFORMATION SUPPLEMENTING THE ITEMS IN THE CONSOLIDATED BALANCE SHEET
(continued)**13. Deferred tax** (continued)

- (i) Under the B.O.T contract for the Hanoi Highway Expansion Project, the Company is entitled to an equity preservation interest rate of 14% per annum during construction phase. According to the guidance of the Ministry of Finance, the equity preservation interest accrued during this period is recognized as financial income and then shall be gradually deducted from toll revenue when the project is put into operation. The Company had declared and paid corporate income tax on the recognised equity interest and had also recorded a deferred tax asset at the same tax rate to reflect the tax that will be deductible in the future as toll revenue is incurred. As of the end of the year, the remaining deductible equity preservation interest for this project is VND 1,007,866,049,287 (as presented in Note V.6), corresponding to a deferred tax asset of VND 201,573,209,846.
- (ii) Deferred tax assets arising from equity preservation interest and financial benefits from other B.O.T projects include:
- The Project of 1A National Road expansion, section through Ninh Thuan Province: the Company recorded deferred tax assets for equity preservation interest and loan interest difference of the project of VND 598,534,808,898 with a tax rate of 5%, equivalent to VND 29,926,740,445;
 - The Project of DT 741 Road expansion: as of the end of the year, the equity preservation interest balance is VND 109,070,894,312, with a corresponding deferred tax asset of VND 15,520,788,261. The tax rate applied for this deferred tax asset is 14.23%, calculated based on the average tax rate for the projected recovery periods.
- (iii) The closing balance represents deferred tax liabilities on business combination transactions as follows:
- Deferred tax liabilities from the revaluation of the fair value of the net assets of BOT Trung Luong - My Thuan Joint Stock Company as of the acquisition date. As of the end of the year, the net book value of the additional cost is VND 576,440,192,427, equivalent to a deferred tax payable of VND 115,288,038,484.
 - Deferred tax liabilities from the revaluation of the fair value of the net assets of VRG Infrastructure Investment Co., Ltd. as of the acquisition date. This deferred tax is deducted directly from the gain on bargain purchase. As of the end of the year, the net book value of the additional cost is VND 129,683,563,145, equivalent to a deferred tax payable of VND 25,936,712,629.

Deferred tax liabilities will be gradually reversed according to the amortised value of the Company's increased toll collection right due to revaluation.

(continued)**19. Loans and obligations under finance leases** (continued)**b. Long-term loans and obligations under finance leases** (continued)***Additional information on outstanding bonds******BNTCH2433001 bond with total par value of VND 1,200 billion***

- Par value: VND 100,000,000 per bond;
- Number of bonds issued: 12,000;
- Bondholders: CII Invest (initially held by CII Company);
- Type of bonds: neither convertible nor pledged with collaterals, without warrants and not a subordinated debt;
- Issuance date: 29 January 2024;
- Term of bonds: 117 months commencing on issuance date;
- Maturity date: 29 October 2033;
- Coupon rate: The fixed interest rate for the first four interest periods is 10.5% per annum. The interest rate applicable for subsequent periods shall be a floating rate, determined based on the average medium-term lending rates for the same tenor quoted by BIDV, ACB and Eximbank in Ninh Thuan Province, as at the Interest Determination Date (in case none of the three banks has a branch in Ninh Thuan, the branches of these banks in Khanh Hoa Province shall be used). The Interest Determination Date for each interest period is the first day of the immediately preceding quarter. For clarification, each financial year comprises four quarters, with the first day of each quarter being 01 January, 01 April, 01 July, and 01 October, respectively. If the Interest Determination Date falls on a non-business day, the Interest Determination Date shall be the following business day;
- Interest calculation period and interest payment: each three months, interest payment made on the last day of the interest calculation period;
- Purpose of issuance: restructuring the Company's debt, specifically paying the Company's long-term loan at Vietnam Joint Stock Commercial Bank for Industry and Trade - Branch 11 under loan contract No. 60/2014-HDTDDA/NHCT942-BOT NINHTHUAN dated 26 August 2014.

As of the closing date, the Company called 150 bonds prior to maturity with total par value of VND 15 billion.

HNHCH2433001 bond with total par value of VND 550 billion

- Par value: VND 100,000,000 per bond;
- Number of bonds issued: 5,500;
- Bondholders: CII Invest (initially held by CII Company);
- Type of bonds: neither convertible nor pledged with collaterals, without warrants and not a subordinated debt;
- Issuance date: 07 February 2024;
- Term of bonds: 117 months commencing on issuance date;
- Maturity date: 07 November 2033;
- Coupon rate: fixed interest rate for the first four interest calculation periods is 10.1% per annum; interest rate applicable for subsequent interest calculation periods is determined based on the average of published medium-term lending rates of 4 (four) banks: JSC. Bank for Foreign Trade Of Vietnam, JSC. Bank for Investment and Development of Vietnam, Vietnam JSC. Bank for Industry and Trade and Vietnam Bank for Agriculture and Rural Development;
- Interest calculation period and interest payment: each three months, interest payment made on the last day of the interest calculation period;
- Purpose of issuance under the approved issuance plan: Partial repayment of a long-term loan at Vietcombank - HCMC Branch, according to Credit Agreement No. 0037/2338/D-TL/01 dated 15 June 2023, in the amount of VND 100 billion, and allocated for investment in the Hanoi Highway and National Highway 1 expansion project, from the Old Station 2 Junction to Tan Van Interchange under the B.O.T contract with a total value of VND 450 billion.

Closing balance	2,121,303,080,000	212,130,308	1,928,547,650,000	192,854,765

In the year, the Company issued additional shares to existing shareholders in accordance with Resolution No. 01/2025/NQ-DHDCD dated 22 April 2025 of the Annual General Meeting of Shareholders for the fiscal year 2024 and Resolution No. 02/2025/NQ-DHDCD dated 15 July 2025 of the first Extraordinary General Meeting of Shareholders of 2025. As a result, the Company's charter capital increased from VND 1,928,547,650,000 to VND 2,121,303,080,000. The Company subsequently completed the procedures for listing the additional shares and amended its Enterprise Registration Certificate.

c. Shares

	Closing balance Shares	Opening balance Shares
Number of shares authorized to be issued	212,130,308	192,854,765
Number of shares issued to the public + <i>Ordinary shares</i>	212,130,308 212,130,308	192,854,765 192,854,765

Par value per share: VND 10,000		

d. Dividends

The Annual General Meeting of Shareholders on 22 April 2025 approved the cash dividends for 2024 at the rate of 12% and concurrently approved the 2025 dividend plan with an expected rate from 10% to 12%. During the year, the Company implemented the distribution of the 2024 profit in accordance with the Resolution of the Board of Directors dated 18 August 2025.

21. Off balance sheet items

	Closing balance VND	Opening balance VND
Bad debts written off	40,619,445,950	-

The Company has recognised provisions for long-outstanding doubtful debts in accordance with prevailing regulations. After undertaking all necessary collection measures, the Company assessed and determined that certain receivables were deemed irrecoverable and, accordingly, derecognised the related impairment provisions. These amounts include deposits awaiting project acceptance amounting to VND 10,888,475,351 with certain partners who are no longer contactable.

The Company will continue to pursue recovery of these written-off receivables; any subsequent recoveries will be recognised as other income in the period in which they are collected.

(i) The investments in infrastructure projects under B.O.T and B.T contracts are entitled to such tax incentives under the current corporate income tax law. Specifically, income derived from these investment projects is entitled to a preferential tax rate of 10% within 15 years, tax exemption for four years, and a reduction of 50% of tax payable for the following nine years.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2025

VI. INFORMATION SUPPLEMENTING THE ITEMS IN THE CONSOLIDATED STATEMENT OF INCOME (continued)**10. Earnings per share***Basic earnings per share*

	Current year VND	Prior year VND
Profit after tax of Parent company	510,380,261,108	531,809,949,326
Appropriation of bonus and welfare funds	(8,094,091,493)	(2,912,708,128)
Net profit attributable to ordinary shareholders of the parent	502,286,169,615	528,897,241,198
Weighted average number of ordinary shares in circulation during the year	193,963,769	192,854,765
Basic earnings per share	2,590	2,742

The profit used to calculate basic earnings per share for the comparative period has been adjusted from the figures presented in the consolidated financial statements for the prior year to reflect the impact of official decision of profit distribution for 2023 approved by 2024 Annual General Meeting of Shareholders on 22 April 2025.

The appropriation of bonus and welfare funds was deducted from the profit attributable to the calculation of basic earnings per share and was estimated at the ratio of 2.5% on the profit after tax presented in the separate financial statements following the profit distribution plan for 2025 approved by the General Meeting of Shareholders.

Diluted earnings per share

The Company did not have any ordinary shares potentially diluted during the year and up to the date of these consolidated financial statements. Therefore, the diluted earnings per share is equal to the basic earnings per share.

VII. OTHER INFORMATION**1. Additional information for items presented in the consolidated statement of cash flows**

	Current year VND	Prior year VND
Proceeds from borrowings during the year (code 33)

VII. OTHER INFORMATION (continued)**2. Operating lease commitments - the Company is the lessee**

As of the balance sheet date, the Company has an irrevocable office lease under which the minimum future lease payments for operating leases are as follows:

	Closing balance VND	Opening balance VND
Within one year	4,652,327,263	4,030,021,971
In the second to fifth year inclusive	6,408,066,574	7,855,179,237
Total	11,060,393,837	11,885,201,208

3. Segment report

For management purposes, the Company is organised into different business units. Accordingly, the primary segment report is based on the Company's products and services.

Segment results include items directly allocated to one segment and more than one segment on a reasonable basis. Items are not included in the segment report, such as assets, liabilities, financial income, financial expenses, selling expenses, general and administrative expenses, other profit, losses, and corporate income tax.

The Company is organised into three business divisions: maintenance and installation of construction works; services rendered; and toll collection. The principal activities of each segment are as follows:

- Maintenance, installation, and construction: installing lighting construction works, providing the maintenance service of public construction works;
- Services render: leasing office building; providing consultancy on management and toll collection to recoup investments in infrastructure projects under B.O.T contracts;
- Toll collection: the Company has been granted toll collection rights on such routes to reclaim its investments in infrastructure projects under B.O.T contracts.

The Company has prepared this report in three business segments. Segment information about the Company's operations is presented below:

AUDITORS

The separate financial statements for the year ended 31 December 2025 have been audited by International Auditing Company Limited - An independent member firm of AGN International.

STATEMENT OF THE BOARD OF MANAGEMENT (continued)

THE BOARD OF MANAGEMENT'S STATEMENT OF RESPONSIBILITY

The Board of Management of the Company is responsible for preparing the separate financial statements, which give a true and fair view of the separate financial position of the Company as at 31 December 2025, and its separate financial performance and its separate cash flows for the year then ended in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to separate financial reporting. In preparing these separate financial statements, the Board of Management is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether applicable accounting principles have been followed, subject to any material departures disclosed and explained in the separate financial statements;
- prepare the separate financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business; and
- design and implement an effective internal control system to properly prepare and present the separate financial statements to minimize errors and frauds.

The Board of Management is responsible for ensuring that proper accounting records are kept, which disclose, with reasonable accuracy at any time, the separate financial position of the Company and that the separate financial statements comply with Vietnamese Accounting Standards, accounting regime for enterprises, and legal regulations relating to separate financial reporting. The Board of Management is also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of frauds and other irregularities.

The Board of Management confirms that the Company has complied with the above requirements in preparing these separate financial statements.

For and on behalf of the Board of Management,

Nguyen Van Chinh
General Director

Ho Chi Minh City, 26 March 2026

No. 2386/2026/BCKT-ICPA.SG

INDEPENDENT AUDITORS' REPORT

**To: Shareholders
Board of Directors and Board of Management
CII Bridges and Roads Investment Joint Stock Company**

We have audited the accompanying separate financial statements of CII Bridges and Roads Investment Joint Stock Company (hereinafter referred to as "the Company"), prepared on 26 March 2026 as set out from page 4 to page 38, which comprise the separate balance sheet as at 31 December 2025, and the separate income statement and separate cash flows statement for the year then ended, and notes to the separate financial statements.

The Board of Management's Responsibility

The Board of Management is responsible for the preparation and presentation of these separate financial statements in accordance with Vietnamese Accounting Standards, accounting regime for enterprise and prevailing relevant regulations in the separate financial statement preparation and disclosure and for such internal control as the Board of Management determines is necessary to enable the preparation of separate financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these separate financial statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the separate financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the separate financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the separate financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Company's preparation and fair presentation of the separate financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Management, as well as evaluating the overall presentation of the separate financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the separate financial statements give a true and fair view, in all material respects, of the separate financial position of the Company as at 31 December 2025, and its separate financial performance and its separate cash flows for the year then ended in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to separate financial reporting.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2025

I. GENERAL INFORMATION**Structure of ownership**

CII Bridges and Roads Investment Joint Stock Company (hereinafter referred to as "the Company") was transformed from Lu Gia Mechanical Company, a state-owned company incorporated in 1978, under Decision No. 8032/QD-UB-KT dated 28 December 1999 of the People's Committee of Ho Chi Minh City. The Company operates under the Enterprise Registration Certificate No. 0300482241 dated 8 March 2000, initially issued by the Department of Finance (formerly the Department of Planning and Investment) of Ho Chi Minh City, and subsequently amended with the latest amendment was the 24th amendment dated 25 December 2025 relating to an increase in charter capital and a change of the Company's head office address.

The Company's Parent company is Ho Chi Minh City Infrastructure Investment Joint Stock Company ("CII"), headquartered at 12th floor, 152 Dien Bien Phu, Thanh My Tay ward, Ho Chi Minh City, Vietnam. The proportion of ownership of the Parent Company is 54.84%, comprising a direct ownership of 47.81% and an indirect ownership through CII's subsidiaries, namely CII Trading Investment Limited Liability Company (formerly CII Trading and Investment One Member LLC.) and CII Services and Investment One Member Limited Liability Company, with ownership interests of 4.99% and 2.04%, respectively.

The Company's charter capital is VND 2,121,303,080,000, divided equally into 212,130,308 shares, par value per share is VND 10,000.

The Company's head office is located at 21st floor, 152 Dien Bien Phu, Thanh My Tay ward, Ho Chi Minh City, Vietnam.

The Company's international name: is CII Bridges & Roads Investment Joint Stock Company, abbreviated name is CII Bridges And Roads.

The Company's shares are officially listed on the Ho Chi Minh City Stock Exchange, stock code: LGC.

The number of employees as at end of year and as at beginning of year was about 26 and 35 respectively.

Business sector

The Company operates in various business sectors.

Operating industries and principal activities

Operating industries of the Company: manufacture of electrical equipment; architectural activities and technical consultancy; wholesale of construction materials, other installation equipment; manufacture of metal components; installation of electrical systems; other business support services; vocational education; wholesale of machinery and other machine parts; real estate business, including ownership, use rights or lease; repair of electrical equipment; installation of other construction systems; coastal and ocean freight transport; inland waterway, road freight transport; operation of sports facilities and clubs; advertising; water exploitation, treatment and supply; installation of water supply and drainage systems, heating and air-conditioning systems; demolition; construction of public utility works; construction of railways and roads, residential and non-residential buildings; construction of civil engineering works.

The Company's principal activities are investing in construction and operating in urban technical infrastructure under build-operate-transfer (B.O.T); construction and installation of public lighting equipment systems, and maintenance of public works.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2025

I. GENERAL INFORMATION (continued)**Normal operating cycle**

The production and business cycle of the Company's investment activity starts from applying for an investment license, carrying out site clearance, and construction until completion. Therefore, the investment activity's business cycle is estimated from 24 months to 60 months.

The production and business cycle of other activities of the Company is normally carried out in a period not exceeding 12 months.

Characteristics of the business activities in the year which have impact on the separate financial statements

In the year, the Company successfully issued 19,275,543 shares to existing shareholders, thereby increasing its charter capital from VND 1,928,547,650,000 to VND 2,121,303,080,000 in accordance with Resolution No. 01/2025/NQ-DHDCD dated 22 April 2025 of the Annual General Meeting of Shareholders for the fiscal year 2024 and Resolution No. 02/2025/NQ- DHDCD dated 15 July 2025 of the first Extraordinary General Meeting of Shareholders of 2025. The Company subsequently listed the additional shares on the Ho Chi Minh City Stock Exchange (HOSE) and completed the amendment of its Enterprise Registration Certificate to reflect the increase in charter capital on 25 December 2025.

In accordance with the investment portfolio restructuring approved by the Board of Directors of CII in 2024, during the year, CII transferred 3.85 million shares of the Company to CII Trading and Investment Co., Ltd. (formerly CII Trading and Investment One Member Co., Ltd. - "CII Invest") and 2.70 million shares to CII Service and Investment One Member Co., Ltd. ("CII Service"). As a result, CII now directly owns 47.81% and indirectly owns 4.99% and 2.04% of voting rights in the Company through CII Invest and CII Service, respectively.

Subsequent to obtaining full ownership in Hien An Binh Roads Bridges MTV Co., Ltd., the Company made an additional capital contribution of VND 323 billion to this subsidiary, pursuant to Resolution No. 09/2025/NQ-HĐQT dated 19 June 2025 issued by the Board of Directors.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2025

I. GENERAL INFORMATION (continued)**The Company's structure** (continued)

- (i) According to the agreement between the Company, CII, and relevant shareholders signed on 8 December 2015, CII will be responsible for all obligations and also enjoy all rights and benefits arising from the equity investment in Trung Luong - My Thuan BOT Joint Stock Company.
- (ii) On 24 April 2025, the Company acquired an additional 0.01% of the share capital of Hien An Binh Bridges and Roads Joint Stock Company, increasing its ownership interest in this subsidiary from 99.99% to 100%. Accordingly, Hien An Binh Bridges and Roads Joint Stock Company converted its legal form from a joint stock company to a single-member limited liability company.

Disclosure of information comparability in the separate financial statements

The comparative figures were presented in separate financial statements for the year ended 31 December 2024. The Company has consistently applied accounting policies in accordance with applicable accounting standards, the accounting regime, and relevant legal regulations in preparing and presenting the separate financial statements. Therefore, the information presented on the separate financial statements are comparable.

II. ACCOUNTING CONVENTION AND FINANCIAL YEAR**Accounting convention**

The accompanying separate financial statements, expressed in Vietnamese Dong (VND), are prepared under the historical cost convention and in accordance with Vietnamese Accounting Standards, accounting regimes for enterprises, and legal regulations relating to separate financial reporting.

The accompanying separate financial statements are not intended to present the separate financial position, results of separate operations, and separate cash flows in accordance with accounting principles and practices generally accepted in countries and jurisdictions other than Vietnam.

Financial year

The Company's financial year begins on 01 January and ends on 31 December.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2025

III. APPLIED ACCOUNTING STANDARDS AND ACCOUNTING REGIME**Accounting standards and accounting regime currently applied**

The Company's Board of Management ensures to comply with the requirements of Vietnamese Accounting Standards, the accounting regime for enterprises promulgated under Circular No. 200/2014/TT-BTC dated 22 December 2014 by the Ministry of Finance guiding the accounting regime for enterprises; Circular No. 53/2016/TT-BTC dated 21 March 2016 by the Ministry of Finance amending and supplementing some articles of Circular No. 200/2014/TT-BTC, Circular No. 202/2014/TT-BTC dated 22 December 2014 guiding on preparation and presentation of separate financial statements and circulars guiding the implementation of accounting standards of the Ministry of Finance in preparing and presenting separate financial statements.

New accounting guidance issued but not yet effective

On 27 October 2025, the Ministry of Finance issued Circular No. 99/2025/TT-BTC ("Circular 99") providing guidance on the enterprise accounting regime. Circular 99 is effective from 01 January 2026 and applies to financial years beginning on or after that date. Circular 99 replaces Circular No. 200/2014/TT-BTC dated 22 December 2014, Circular No. 53/2016/TT-BTC dated 21 March 2016 and other relevant regulations. Provisions relating to the equitization of state-owned enterprises as stipulated under Circular 200 shall continue to be implemented.

The Company's Board of Management is currently assessing the impact of this Circular on the Company's separate financial statements for subsequent accounting periods.

IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies, which have been adopted by the Company in the preparation of these separate financial statements, are as follows:

Estimates

The preparation of separate financial statements in conformity with Vietnamese Accounting Standards, accounting regime for enterprises, and legal regulations relating to separate financial reporting requires the Board of Management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and disclosures of contingent assets and liabilities at the date of the separate financial statements and the reported amounts of revenues and expenses during the year. Although these accounting estimates are based on the Board of Management's best knowledge, actual results may differ from those estimates.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits and short-term bank deposits, highly liquid investments, which are matured within three months commencing on the transaction date, readily convertible to known amounts of cash, and which are subject to an insignificant risk of changes in value.

Held-to-maturity investments*Held-to-maturity investments*

Held-to-maturity investments comprise investments that the Company has the positive intent or ability to hold to maturity, including term deposits of more than three months (commercial bills), bonds, and preference shares which the issuer shall redeem at a certain date in the future, and other held-to-maturity investments.

Held-to-maturity investments are recognised on a trade date basis and are initially measured at acquisition price plus directly attributable transaction costs. Post-acquisition interest income from held-to-maturity investments is recognised in the separate statement of income on an accrual basis. Pre-acquisition interest and other economic benefits are deducted from the cost of such investments at the acquisition date.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2025

IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**Held-to-maturity investments** (continued)*Held-to-maturity investments (continued)*

When there is specific evidence that a part or all of the investment may not be recoverable and the amount of loss can be measured reliably, the loss is recognised in financial expenses during the year and directly reduced to the investment value.

Held-to-maturity investments are measured at cost less provision for doubtful debts. Provision for doubtful debts relating to held-to-maturity investments is made in accordance with prevailing accounting regulations.

Investment in subsidiary

A subsidiary is an entity over which the Company has control. Control is achieved where the Company has the power to govern the financial and operating policies of an investee enterprise to obtain benefits from its activities.

Investments in subsidiaries are initially recognized at cost, including the purchase price, capital contribution, and any directly attributable transaction costs. Pre-acquisition dividends and profits of the investment are recorded as a reduction in the value of the investment. Post-acquisition dividends and profits are recognized as revenue. When the investors receive stock dividends, they only record the number of additional shares, not recording an increase in the value of investments and income from stock dividends.

Investments in subsidiaries are carried in the separate balance sheet at cost less provision for impairment of such investments (if any). Provisions for impairment of investments in subsidiaries are made when the investee suffers a loss that may cause the Company to lose its investment capital or when there is reliable evidence of diminution in value of those investments at the balance sheet date.

An increase or decrease in allowance for diminution in value of investments in subsidiaries at closing date is recognized as financial expense for the year.

Trade receivables

Receivables represent the amounts recoverable from customers or other debtors and are stated at book value less provision for doubtful debts.

Provision for doubtful debts is made for overdue receivables stated in economic contracts, loan agreements, contractual commitments or debt commitments, and outstanding receivables that are doubtful of being recovered. Provision for overdue receivables is made based on overdue days in payment of principals following the initial economic contract, exclusive of the rescheduling of debts between contracting parties, provision for outstanding receivables is made when the debtor is in bankruptcy or is doing procedures to dissolve, missing, escaped.

An increase or decrease in provision for doubtful debts at the closing date is recognised in general and administration expenses in the year.

Loan receivables

Loan receivables present the loans under agreements that are not traded on the market as securities.

Loan receivables are measured at cost less provision for doubtful debts. Provision for doubtful debts relating to loan receivables is made based on expected losses that may arise.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2025

IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**Inventories**

Inventories are stated at the lower of cost and net realisable value. Cost comprises direct materials and, where applicable, direct labor costs and those overheads that have been incurred in bringing the inventories to their present location and condition. Cost is calculated using the weighted average method. The net realisable value represents the estimated selling price less all estimated costs to completion and expenses incurred in marketing, selling, and distribution.

Provision for devaluation of inventories is made in accordance with prevailing accounting regulations, which allow provision to be made for obsolete, damaged, or sub-standard inventories and for those that have costs higher than net realisable values as of the reporting date. The provision for devaluation of obsolete, damaged, or sub-standard inventories is not included in deductible expenses for the calculation of corporate income tax until such inventories are disposed.

An increase or decrease in the provision for devaluation of inventories at the closing date is recognised in the cost of sales in the year.

Tangible fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation.

The costs of purchased tangible fixed assets comprise their purchase prices and any directly attributable costs of bringing the assets to their working condition and location for their intended use.

The costs of self-constructed or manufactured assets are the actual construction or manufacturing costs plus installation and test running costs.

Tangible fixed assets are depreciated using the straight-line method over their estimated useful lives, as follows:

	<u>Years</u>
Buildings and structures	10 - 50
Machinery and equipment	7
Motor vehicles, transmissions	5 - 10
Office equipment	3
Others	6

Loss or gain resulting from sales and disposals of tangible fixed assets is the difference between profit from sales or disposals of assets and their residual values and is recognised in the separate statement of income.

Intangible fixed assets

Intangible fixed assets are stated at cost less accumulated amortization. The Company's intangible fixed assets represent the computer software which is amortized using the straight-line method from 5 to 10 years.

Construction in progress

Properties in the course of construction for production, rental, or administrative purposes, or the purposes not yet determined, are carried at cost. Cost includes professional fees and for qualifying assets, borrowing costs dealt with under the Company's accounting policy. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2025

IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**Prepayments**

Prepayments include actual costs that have arisen but are related to the results of the operation of various accounting periods, comprising office repair costs and other types of prepayments. These expenditures have been capitalized as prepayments and are allocated to the statement of income, using the straight-line method in accordance with the prevailing accounting regulation.

Payables

Accounts payable are monitored in detail by payable terms, payable parties, original currency, and other factors depending on the Company's managerial requirements. Accounts payable to suppliers include trade payables arising from buying-selling transactions and payables for import through trustees (in import entrustment transactions). Other payables include non-trade payables not related to buying-selling transactions. Accounts payable are classified as short-term and long-term in the separate balance sheet based on the remaining period of these payables at the reporting date.

Accrued expenses

Accrued expenses are recognised for amounts to be paid in the future for goods and services received, whether or not billed to the Company or lack of accounting document, which are recorded to operating expenses of the reporting period.

Borrowings and finance lease liabilities

Borrowings and finance lease liabilities including loans, finance lease debts, excluding loans in the form of bonds or preferred shares with provisions that oblige the issuer to repurchase at a certain time in the future. The Company records borrowings in detail by debtors and classifies them into short-term and long-term borrowings based on their remaining period from the balance sheet date to the maturity date.

Costs directly attributable to borrowings are recognised as financial expenses, except for costs incurred on a particular loan for investment, construction, or production of an asset in progress, which are capitalised under the accounting standard "Borrowing costs".

Owners' equity recognition

Owners' equity is recognised by actual capital contributions from shareholders.

Share premium is recognised at the greater or smaller difference between issuing price and par value of shares upon the initial public offering, additional issue, or re-issue of treasury shares. Costs directly attributable to the issuance of new shares and the re-issuance of treasury shares are deducted share premium.

Retained earnings are recognised by operating results less (-) current corporate income tax expense and adjustments due to the retrospective application of changes in accounting policies and the retrospective adjustments for material misstatements of prior periods.

Dividends are announced and paid in the following year based on approval in the Annual General Meeting of the Company. Dividends shall be recognised in the separate balance sheet when the declaration is officially sent to shareholders of the Company.

Appropriation of reserves and funds from profit after tax is based on the Company's ordinance and approval in the Annual General Meeting.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2025

IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**Revenue recognition***Revenue from sales of goods*

Revenue from the sales of goods is recognised when all five (5) following conditions are satisfied:

- (a) The Company has transferred to the buyer the significant risks and rewards of ownership of the goods;
- (b) The Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- (c) The amount of revenue can be measured reliably. Where the sale contract stipulates that the buyer is entitled to return the purchased products or goods under specific conditions, revenue is recognized only when those specific conditions no longer exist, and the buyer is not entitled to return products and goods (except for cases where customers have the right to return goods in the form of exchange for other goods or services);
- (d) The Company has received or will probably receive economic benefits associated with the transaction; and
- (e) The costs incurred or to be incurred in respect of the transaction can be measured reliably.

Revenue from services rendered

Revenue from rendering services of a transaction involving the rendering of services is recognised when the outcome of such transactions can be measured reliably. Where a transaction involving the rendering of services is attributable to several periods, revenue is recognised in each period by reference to the percentage of completion of the transaction at the balance sheet date of that period. The outcome of a transaction can be measured reliably when all four (4) following conditions are satisfied:

- (a) The amount of revenue can be measured reliably. Where the contract stipulates that the buyer is entitled to return the purchased service under specific conditions, revenue is recognised only when those specific conditions no longer exist and the buyer is not entitled to return the service rendered provided;
- (b) It is probable that the economic benefits associated with the transaction will flow to the Company;
- (c) The percentage of completion of the transaction at the balance sheet date can be measured reliably; and
- (d) The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

Financial income

Interest income is accrued on a time basis by reference to the principal outstanding and at the applicable interest rate unless the recovery of interest is uncertain.

Dividends and profits from investments are recognised when the Company's right to receive payment has been established. When the investors receive stock dividends, they only record the number of additional shares, not the income from stock dividends.

Cost of sales

Cost of goods sold and services rendered are recorded at the actual incurred amount and aggregated by the value and quantity of finished goods, merchandise, and materials sold and services rendered to customers, conforming to the matching principle and the precautionary principle. The costs exceeded normal levels of inventory, and services were recognised immediately in operating results in the period.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2025

IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**Borrowing costs**

Borrowing costs are recognised in the separate statement of income in the period when incurred unless they are capitalized under the Vietnamese accounting standard "Borrowing costs". Accordingly, borrowing costs directly attributable to the acquisition, construction, or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets until the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the cost of those assets. For specific borrowings for construction of fixed assets and investment properties, borrowing costs are capitalised even when the construction period is less than 12 months.

Business cooperation agreement

Business cooperation agreements are agreements between the Company and its partners by contract to jointly carry out business activities but do not establish independent legal entities and are controlled by one of the parties. Profit sharing for partners is recorded in the separate statement of income.

Taxation

The income tax expense represents the sum of tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the period. Taxable profit differs from net profit as reported in the separate statement of income because it excludes items of income or expense that are taxable or deductible in other periods (including loss carried forward, if any), and it further excludes items that are never taxable or deductible.

Deferred tax is recognised on significant differences between carrying amounts of assets and liabilities in the separate financial statements and the corresponding tax bases used in the computation of taxable profit and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all temporary differences, and deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which temporary deductible differences can be utilised.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised. Deferred tax is charged or credited to profit or loss, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

Other taxes are paid in accordance with the prevailing tax laws in Vietnam.

The determination of the tax currently payable is based on the current interpretation of tax regulations. However, these regulations are subject to periodic variation, and their ultimate determination depends on the results of the tax authorities' examinations.

Related parties

The enterprises, associates, and individuals are considered to be related to the Company if one party has the ability, directly or indirectly through one or more intermediaries, to control over the other party or is under the control of the Company or joint control with the Company; the associates and individuals directly or indirectly holding the voting power over the Company that exercises significant influence over the Company. Related parties may be the key management personnel, the General Director, and officers of the Company. Close family members of any individuals or associates herein or associates of these individuals are also considered related parties.

In considering the relationship of each related party, the substance of the relationship is noted over the legal form.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2025

V. INFORMATION SUPPLEMENTING THE ITEMS IN THE SEPARATE BALANCE SHEET**1. Cash and cash equivalents**

	Closing balance VND	Opening balance VND
Bank demand deposits	17,072,326,054	3,779,355,620
Cash equivalents	9,500,000,000	10,500,000,000
Total	26,572,326,054	14,279,355,620

Cash equivalents represent time deposits at commercial banks with an original maturity of no more than three (03) months. The closing balance and opening balance include VND 1.5 billion used to secure the contract performance guarantee.

2. Short-term trade receivables

	Closing balance VND	Opening balance VND
Trade receivables from related parties (see Note VII.2)	1,467,894,008	8,614,010,632

Total	594,511,157,531	901,824,367,627

The Company provided long-term financial support to BOT Ninh Thuan Province Co., Ltd. with a credit limit of VND 600 billion, a term of five (5) years and maturity on 6 November 2030. This funding is intended to support the subsidiary's operating activities, bearing an interest rate of approximately 10.5% per annum during the year.

The Company provided financial support to Tuan Loc Construction Investment Corporation under an agreement with a term of three (3) years from 8 April 2024, for the purpose of funding the payment for additional shares subscribed in BOT Trung Luong - My Thuan JSC. The applicable interest rate during the year is 8.5% per annum. This financial support is secured by the additional shares acquired, together with all related rights and benefits of Tuan Loc Company in BOT Trung Luong - My Thuan JSC.

Total	3,744,216,531,133	3,889,705,480,619

(i) The balance represents the return of investment capital in Ninh Thuan Investment Construction Development JSC., the subsidiary implemented investment project to expand the National Highway 1A bypass through Phan Rang-Thap Cham City, Ninh Thuan Province under B.O.T contract. This amount will be recognized as a decrease in the investment cost of this subsidiary when the subsidiary finalizes toll value and completes procedures of reducing its charter capital.

(ii) The year-end balance represents advances received for profit distribution from BOT Rach Mieu Bridge Co., Ltd. This amount will be recognized in the Company's separate statement of profit or loss upon the issuance of an official decision on profit distribution.

(iii) The ending balance represents amounts received from investment cooperation contracts and accrued interest, including:

- The amount received from Dien Bien Phu Building Investment Company Limited (OBI) following the investment cooperation contract in the project of 1A National Road extension, section through Ninh Thuan Province. The contract term is 8 years from the date that OBI fully pays the cooperative capital. According to the contract, OBI will receive profit distributions from the project or a value that is agreed between two parties at each time of payment. The closing balance of outstanding payment is VND 926,250,000,000.
- The amount received from CII Engineering and Construction JSC. (CII E&C) under the investment cooperation contract in the project of Trung Luong - My Thuan Expressway phase 1. The contract term is from 01 July 2023 to 31 December 2031. As agreed, CII E&C will receive profit distributions from the project, or a value agreed upon between two parties at each time of payment. The closing balance of outstanding payment is VND 1,349,933,198,949.
- The amount received from Khu Bac Thu Thiem Co., Ltd. (KBTT) under the investment cooperation contract in the Ha Noi Highway project. The contract term is ten years from the day KBTT fully paid the cooperative capital. According to the contract, KBTT will receive profit distributions from the project, or a value agreed upon between two parties at each time of payment. The closing balance of outstanding payment is VND 857,469,233,717.
- The cooperation capital received for investment in Trung Luong - My Thuan BOT Joint Stock Company, corresponding to a 40% interest, with CII Trading and Investment Co., Ltd. (previously cooperation with CII Company), is valued at VND 243,000,708,962 as of the end of the year.

d. Dividends

The Annual General Meeting of Shareholders on 22 April 2025 approved the cash dividends for 2024 at the rate of 12% and concurrently approved the 2025 dividend plan with an expected rate from 10% to 12%. During the year, the Company implemented the distribution of the 2024 profit in accordance with the Resolution of the Board of Directors dated 18 August 2025.

16. Off balances sheet items

	Closing balance VND	Opening balance VND
Bad debts written off	34,424,863,766	-

The Company has recognised provisions for long-outstanding doubtful debts in accordance with prevailing regulations. After undertaking all necessary collection measures, the Company assessed and determined that certain receivables were deemed irrecoverable and, accordingly, derecognised the related impairment provisions. These amounts include deposits awaiting project acceptance amounting to VND 10,888,475,351 with certain partners who are no longer contactable.

The Company will continue to pursue recovery of these written-off receivables; any subsequent recoveries will be recognised as other income in the period in which they are collected.
